Warrant For Special Town Meeting Monday, June 18, 1979

To either of the Constables of the Town of Stoneham in the County of Middlesex.

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs to meet in Town Hall on Monday, June 18, 1979 at 7:30 o'clock in the evening to act on the following Articles of this Warrant:

ARTICLE 1. to see if the Town will vote to raise and appropriate supplemental sums to those previously voted under Article 9, Section F -Schools, of the 1979 Annual Town Meeting Warrant. Said sums to be raised from taxation, by transfer from available funds, by borrowing or otherwise, or do anything in relation thereto.

Patricia Ann Norelli and 253 Others
and Stoneham School Committee

ARTICLE 2. To see if the Town will accept the provisions of the General Laws of the Commonwealth, Chapter 71, Section 71E, which read as follows:

Section 71E. In any city or town which accepts this section, all monies received by the school committee in connection with the conduct of adult education and continuing education programs, including but not limited to adult physical fitness programs conducted under Section Seventy-one B, summer school programs and programs designed by prior vote of said committee as community school programs, and in connection with the use of school property under Section Seventy-one, shall be deposited with the treasurer of the town or city and held as separate accounts. The receipts held in such a separate account may be expended by said school committee without further appropriation for the purposes of the program or programs from which the receipts held in such account were derived or, in the case of the use of school property account, for expenses incurred in making school property available for such use, notwithstanding the provisions of Section Fifty-three of Chapter Forty-four of the General Laws. A city or town may appropriate funds for the conduct of any such program or for expenses incurred in making school property available for such use, which funds shall be expended by the school committee in addition to funds provided from other sources. Three years from the date a city or town accepts the provisions of this paragraph, and every third year thereafter, said city or town may act to rescind its original acceptance.

Patricia Ann Norelli and 253 Others
and Stoneham School Committee

ARTICLE 3. To see if the Town will vote to take any action necessary under Articles #9, 10, 25 and 26 of the 1979 Annual Town Meeting Warrant so as to have said votes comply with the provisions of Chapter 151, Acts of 1979, the so-called "Tax Cap Bill", or do anything in relation thereto.

BOARD OF SELECTMEN

And you are directed to have five hundred (500) copies of the warrant printed and so serve the same by posting duly attested copies in at least ten (10) public places in the Town at least fourteen days before the time for holding said meeting and by causing an attested copy to be published in some newspaper in the Town, the publication to be not less than three days before said meeting.

The remaining copies you are to have at the place and time of meeting as aforesaid.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given unto our hands this twenty-ninth day of May in the year of our Lord one thousand nine hundred and seventy-nine.

ARTICLE 7. VOTED that the Town raise and appropriate the sum of $264.76 for electricity costs incurred by the Stoneham Council on Aging for fiscal year 1978/79. Said appropriations to be raised by transfer from Group Life & Health Insurance, line #1564 of Article #9 of the 1979 Annual Town Meeting warrant and that the Town Accountant is hereby authorized to make such transfer on the books of the Town.

ARTICLE 8. It was moved and seconded that the Town amend the By-Laws of the Town by deleting Article III, Section 2-16, as presently written, and inserting in lieu thereof the following:

Section 2-16. Creation; Composition; Terms of Members; Subsequent Appointments; Vacancies.

There shall be a Finance and Advisory Board of eleven (11) members who shall be voters of the Town and shall be appointed by the Town Moderator on the first Monday following the adjournment of the Annual Town Meeting for 1974, at which time the term of office of those members presently serving shall terminate. The term of office for the members so appointed shall be four members for one year, four members for two years, and three members for three years. Upon the expiration of said terms, the succeeding members shall be appointed for terms of three years, under the provision of section 2-17, by the Town Moderator. The then current members of the Finance and Advisory Board shall evaluate prospective members and make recommendations to the Moderator. In making appointments, the Moderator shall give first preference to those persons who have been favorably recommended by majority vote of the existing board. A vacancy on the Board other than by expiration of term shall be filled in the same manner.

It was further moved and seconded that Article 8 be amended by deleting the following sentence: "In making appointments, the Moderator shall give first preference to those persons who have been favorably recommended by majority vote of the existing board." This motion carried. UNANIMOUSLY.

ARTICLE 8. VOTED that the Town amend the By-Laws of the Town by deleting Article III, Section 2-16, as presently written, and inserting in lieu thereof the following:

Sec. 2-16. Creation, Composition; Terms of Members; Subsequent Appointments; Vacancies.

There shall be a Finance & Advisory Board of eleven (11) members who shall be voters of the Town and shall be appointed by the Town Moderator on the first Monday following the adjournment of the Annual Town Meeting for 1974, at which time the term of office of those members presently serving shall terminate. Upon the expiration of said terms, the succeeding members shall be appointed for terms of three years, under the provisions of Section 2-17, by the Town Moderator. The then current members of the Finance & Advisory Board shall evaluate prospective members and make recommendations to the Moderator. A vacancy on the board other than by expiration of term shall be filled in the same manner.

In accordance with Town By-Laws the following vote on Article 9 was conducted by secret ballot:

ARTICLE 9. VOTED that the Town raise and appropriate the sum of $3,000,000.00 for the purpose of renovating and constructing an addition to the present Junior High School building and renovating the present High School building as may be required for school housing and educational needs including engaging of an architect to prepare final drawings, plans and specifications for obtaining fixed price bids. And that the Town Treasurer with the approval of the Board of Selectmen, be authorized to sell from time to time, as occasion requires, Town notes, bonds or other evidence of indebtness to an amount not exceeding $3,000,000.00 in accordance with Chapter 645 of the Acts of 1948 as amended. YES 510; NO 174.

It was moved and seconded that Article 9 be reconsidered. This motion DID NOT CARRY.

ARTICLE 10. VOTED that the Town authorize the Town Moderator to appoint a committee of five (5) members to be known as the 1979 Stoneham School Building Committee which shall include one member each from the Stoneham School Committee and the Feasibility Committee, and three other members who shall be residents of the Town. Said committee to be granted all the powers and duties necessary to carry out any and all votes passed under Article 9 of this warrant including the necessary architectural plans and specifications, and to enter into all lawful contracts and agreements in behalf of the Town to accomplish said votes, or do anything in relation thereto.

ARTICLE 11. VOTED that the Town raise and appropriate the sum of $11,100.00 to rebuild four (4) retaining walls on Cottage Street and one (1) retaining wall on Walsh Avenue. That said appropriation be raised by transfer of $11,100.00 from the balance of Article #19 of the 1978 Annual Town Meeting warrant and that the Town Accountant is hereby authorized to make said transfer on the books of the Town.

ARTICLE 12. It was moved and seconded that the Town amend Chapter 10, Article IV of the Personnel By-Laws of the Town of Stoneham entitled "Leaves" as follows:

Delete:

Sec. 10-20. Sick leave - Extended to full-time employees.

Every full-time employee not covered by collective bargaining who has completed his probationary period shall be granted sick leave with pay for absence caused by illness, or by injury, or exposure to contagious disease (nonoccupational). Illness does not include pregnancy or maternity but may include complications therefrom.

and insert in lieu thereof:

Every full-time employee not covered by collective bargaining who has completed his probationary period shall be granted sick leave with pay for absence caused by illness, or by injury, or exposure to contagious disease (nonoccupational).

It was futher moved and seconded that the main motion be amended by adding, following the word "(nonoccupational)": "provided such employee annually will meet the minimum requirements of the President's Physical Fitness Program as adjusted for age, height and sex." This motion DID NOT CARRY.

ARTICLE 12. VOTED that the Town amend Chapter 10, Article IV of the Personnel By-Laws of the Town of Stoneham entitled "Leaves" as follows:

Annual Report of School Committee

The Stoneham School Committee feels it has an obligation and responsibility to future generations and has encouraged the development of educational programs to meet the needs of the youth of the community to prepare them for the future.

In an effort to meet a variety of educational needs of a very diversified population, the school committee offers many different programs. This report is prepared to demonstrate the quality of the effort to fulfill this tremendous responsibility.

In 1979, the school committee moved forward to improve the school system in a variety of ways. A program to convert the present Junior High School to a four year (9-12) High School and the present High School to a two year (7-8) Junior High School was proposed. The decrease in the elementary student population permitted the committee to close the Emerson School on Wright Street. This allowed for better allocation of resources to cope with the ever increasing financial problems. A Title I project to develop a mathematics program in the elementary schools was authorized. A new safety program started in the fall of 1978 was refined and brought into full implementation this year. The committee met the challenge of a 4% budget CAP imposed by the State legislature.

The committee feels that it has met the challenge respresented by changes in the fiscal ability of our citizens, snowballing educational technology, and State CAP. We believe that the quality of education in our schools is evidence that Stoneham is received a full return on its investment.

Mr. Peter D'Angelo, Chairman
Mrs. Frances Wallace, Vice-Chairman
Mr. James Kellogg
Mr. Edward Rosa
Mr. Theodore Christo

STUDENT REPRESENTATIVES

The student representatives of the Stoneham School Committee consist of five high school students who are elected by their peers for a full year.

The students attend all scheduled school committee meetings and receive agendas and all relevant materials except information concerning matters that are confidential or that are to be dealt with in executive session.

These students represent the student body of the school system and have been able to give the school committee an insight into the attitudes, interests, and concerns of Stoneham students.

REPORT FROM THE SUPERINTENDENT

This 89th Annual Report of the Stoneham Public School Department is a compilation of information prepared by principals, supervisors and other personnel and is designed to keep parents of school children and citizens of the Town better informed about developments in their school system.

The School Department employes 380 persons in either professional or support positions. Of this number 215 are full-time and 18 are part-time teachers, counselors, librarians, media specialists and psychologists. There are 12 program supervisors, 16 full-time and one part-time aides, and 19 principals, supervisors or directors. The health department has four full-time nurses and one part-time physician. There are 17 full-time secretaries, 11 part-time clerical workers and a data processing operations clerk. The department of special services has a director, 26 full-time and 1 part-time custodians and 3 maintenance/craftsmen. Food services has a director, 1 driver and 14 full-time and 18 part-time cafeteria helpers. In addition, there are 2 part-time summer school teachers, 28 part-time evening school teachers and 6 full-time and 6 part-time personnel supported by federal grants.

In September of 1979, the Emerson School was closed. This reduced the number of elementary classrooms by 8. The special education department was moved to the central office area at the junior high school building.

During 1979, we saw the retirement of Mrs. Dorothy Feeley, a long time teacher in the elementary schools, and for the last several years a reading specialist. Mr. Leslie Kannheiser retired after twenty years as Director of Special Services.

In the fall, the school community was saddened at the passing of the Dean at the High School, Agnes-Mary Barry. Mrs. Barry's death was strongly felt by many and her warm personality will be missed by all.

In 1979, the elementary principal districts were reassigned as follows: North and South Schools, Colonial Park and East Schools, Robin Hood School and Central School which retained a full-time principal and an assistant principal.

In the spring the Feasibility Committee, which had worked for three years, presented a plan for the secondary schools to the school committee. The plan called for an addition to the present junior high school on Franklin Street to become a four year (9-12) high school and renovation of the present high school on Central Street to become a two year (7-8) junior high school. The school committee adopted the plan and placed articles on the

warrant of the October Town Meeting. This Town Meeting, by an overwhelming vote, authorized $3,000,000 for this project. A committee has been appointed and the project is moving forward. It is anticipated that the construction phase will begin in the spring of 1980. It is possible the conversion will take place in September of 1981.

The Curriculum Development Program this year completed eleven projects as follows:

Photography — High School
Astronomy — High School
Theatre Arts — High School
Resource Guide for Language Arts — K-6
Resource Guide for Special Education — K-4
Earth Science — Junior High School
Instrumental Music — Grades 4-12
Elementary Music — K-6
Music Electives — High School
Music — Grade 8
S.E.E.M. — High School

HIGH SCHOOL

Introduction

During 1979 at Stoneham High School, efforts were continued to improve the quality of education by carrying out the recommendations of the visiting committee of the New England Association of Schools and Colleges. Many of these recommendations—those dealing mainly with inadequate facilities—could not possibly be implemented in the present structure. It was a source of great satisfaction to the staff that the Special Town Meeting which convened on October 15, 1979, voted to appropirate the necessary funds to carry out the school conversion program recommended by the Feasibility Study Committee.

STAFF

The recent evaluation confirmed that one of the school's most important assets is an experienced, dedicated, professional staff. Staff members continue to work towards advanced degrees and to take advantage of in-service programs. There was little turnover this year.

ORGANIZATION

The Stoneham Plan, which was expanded four years ago to provide options to quiet study for all students throughout the school day, has been retained. Students may, by contract, leave the campus during the last period with no requirement concerning their experiences except for conduct outlined in the guidelines. Throughout the remaining school day, students may leave campus, by contract, for pre-arranged educational experiences. These include the following: tutoring students and assisting teachers at elementary levels; the occupational information program in which students observe in offices, businesses, trades and professions; and the community service program through which students use their time to work with, entertain, and provide services to the elderly, the sick and the handicapped in the community or perform other worthwhile service. In-school options of Stoneham Plan include open cafeteria, mini-courses, auditorium program, quiet study, library, computer room, language laboratory, special help, and tutoring fellow students.

ENGLISH

English teachers this year started evaluting the literature curriculum during department meetings and in-service days. This work will continue for two more years. After consulting with parent groups, the department adopted two new literature texts: **Focus on Literature: Forms** — grade 10 and **Focus on Literature: America** — grade 11. During the year students participated in various enrichment activities associated with the English department: **Seeds,** the literary magazine; the senior play, **Dracula;** the yearbook staff; a film series and field trips.

SOCIAL STUDIES

In 1979 the senior high school social studies department consisted of nine members, both full and part-time. These nine people combined to teach three separate courses in United States History and eleven elective courses. Among the elective courses were three courses offered for the first time: Political Spectrum, China in the Twentieth Century and Local History. The classroom experience was supplemented by three exceelent out of school programs: the Boston-based "Political Discovery," the Washington-based "Close-Up" program and the Harvard Model United Nations.

BUSINESS EDUCATION

The business education program at the high school continues to offer solid preparation for business and office jobs as well as provide background instruction for students planning to attend college as administration, management, or accounting majors. During 1979, no major curriculum changes occurred. A plan for regular replacement of equipment was devised for budgetary purposes; government funds for an electric typing room at the present high school were received by the Town. Proposed plans for the new business education wing are being closely studied so that this department can fulfill its very important role in helping students develop to their fullest potential the skills, attitudes, and appreciations that will contribute to their success.

FOREIGN LANGUAGES

In preparation for the move to a four-year high school, the foreign language department began a study of student needs. The two-part study will be used to evaluate offerings, to modify curriculum where needed, and to develop standardized tests for all levels. Part I of the study, a survey of major colleges, is complete. Part II of the study will focus on the business community. The department would like to make the findings available to parents and students.

MATHEMATICS

Instruction in mathematics has been strengthened this year in two areas. A career mathematics course is being offered to students who, beyond ninth grade, still experience difficulty with basic skills. Computer instruction will be facilitated by the acquisition of non-school funded minicomputers which operate independently within the classroom. BASIC, a simple non-technical language is used (specialists will go on to COBOL or FORTRAN). It will be of special use to those going on in the study of business, or the physical or social sciences.

SCIENCE

1979 was a busy and productive year for the science department. Curriculum development continued with work being done during the summer on a curriculum manual for the semester course in astronomy and new textbooks being purchased for the CB - S levels in biology. The science club continued to be quite active.

HEALTH

The health department continues to be an active part of the high school. Department members are currently reviewing the curriculum in order to make it more relevent and meaningful for students. A proposal has been made to develop a new curriculum for the program during the summer of 1980.

HOME ECONOMICS

The home economics courses are designed to meet the present and future needs of our young people. The five major discussions of content for home economics are: (1) human development and the family (2) home management and family economics (3) food and nutrition (4) housing, and (5) textiles and clothing. The courses to correspond with this content include: Parenting, Independent Living, Marriage and Family Living, Child Development, Home Decorating, Advanced and Basic Clothing, Introduction to Food Service, Food Preparation, Advanced Foods and Hospitality, and Home Crafts.

INDUSTRIAL ARTS

Industrial arts education is a vital component of the total curriculum of every boy and girl. It is incumbent on the industrial arts staff to provide orientation and foundational instruction in the fields of woodworking, graphic arts, automotive, electricity and mechanical drawing.

The industrial arts staff has designed offerings that are specific enough to assist students in making career decisions.

COOPERATIVE VOCATIONAL PROGRAM

The cooperative vocational program, distributive education, workstudy and the health child care and foods intern programs at Stoneham High School are all based on the principle that a well-educated student develops most effectively through controlled and structured experiences beyond the school confines in the world at work.

STUDENT ACTIVITIES

In 1979, student activities were developed according to the interests and enthusiasm of students. Clubs and activities which relate to the various disciplines, government and service careers, and worthy use of leisure time offer many options for all high school students.

JUNIOR HIGH SCHOOL

The roof has been repaired. Staff and students can now give full attention to educational issues.

The following occurrences were worthy of note during 1979.

The junior high school has a S.E.E.M. class this year. This is a class of children with special needs. The class numbers on the average about ten. Some integrate with other classes or become "mainstreamed" as they progress.

One of the art teachers was named State Chairperson of Youth Art Month and arranged an exhibit of art work from throughout the state at the John Hancock Building.

A relatively new montly staff meeting has been incorporated at the junior high. The staff could select one of three meetings to attend concerning areas of importance to the junior high school students. Teachers chaired and recorded the meetings while administrators and program supervisors attended as resource persons. These meetings proved popular and productive and will continue.

The business education department has been growing steadily with renewed interest in the junior high level. The teaching staff has more than doubled since ninth graders have increased their elections of personal typewriting, general business, and business mathematics.

The junior high school social studies department curriculum included required courses in grades seven and eight as well as two elective courses in grade nine, American Issues and World Culture. The American Issues course now stresses major cases decided by the Supreme Court's interpretation of the Constitution and a study of the issues present today that relate to those Supreme Court decisions.

After working on composition guidelines last year, English teachers have started this year to evalute the literature program in the junior high school. This work will go on for the next two years.

Students during the year have participated in field trips to local stage productions and in the junior high writing, spelling and oratorical contests.

In summary, it has been a very active year.

CENTRAL SCHOOL

Through the early part of 1979, Central School had an enrollment of 651 students. This enrollment was composed of 57 fourth graders, 292 sixth grade students and 288 fifth grade students. There were two fourth grade teachers, ten fifth grade teachers and ten sixth grade teachers. There were also two classes of students (14) with learning disabilities. The fall enrollment, anticipated in June at 590 students is now 633 students with the majority of new students coming into grade five. The teaching staff in September of 1979 was twenty-four, composed of two fourth grade teachers, ten fifth grade teachers and eleven sixth grade teachers and one special education teacher.

The relocation of the offices of elementary media and health education at Central School has greatly improved the availability of these departments to elementary personnel. One room was renovated to accommodate a language development (speech) room in order to provide a more private and quiet area for the speech therapists. The Teachers' Curriculum Center has been relocated at Central School due to the need for more space in the central office of the superintendent. With the reading department also located at Central School, the school is well serviced by specialists. Material from all these departments and areas is ready and available and provides staff and students with excellent resources.

The teaching staff at Central School is a well experienced group of professionals. Only two members are not on tenure. This staff provides the students at Central School with experience gained in Stoneham over many years and therefore strengthens the academic program. Throughout the year, the staff has continually been involved in reviewing and strengthening the curriculum through many inservice hours, research, visits to other communities and institutes.

The Central School Council continues to maintain a strong leadership team of officers. Their interest and involvement in the school has been one of cooperation and support. Parents are the core of the solid relationship established between school and home. Their support has been admirable over the past year.

One of the most impressive student, teacher and community projects was accomplished at Central School this year. Under the guidance and direction of the art teacher, everyone pitched in and collected aluminum cans and other materials for recycling. Parents, local businesses and many other people filled the school week after week with aluminum. From the proceeds, the students had an environmental expert and artist, Captain Bob Cottle, visit with all the students. In addition, plants, flowers, bulbs and other items were purchased to create a large planter for the front

lawn. Telephone poles were donated by the telephone compnay, soil was contributed to Central from a parent and wood chips were poured in from the Board of Public Works. The result is a beautiful, impressive planter on the front law as a gift to the community from the children at Central School. This area is maintained by the students throughout the year as a beautification project for the Central School environment.

Central School has run very well over the past year. There were few if any serious problems that affected the operation of the building or its personnel. The staff is diligent in its pursuit to provide the best for students.

NORTH AND SOUTH SCHOOLS

The school year 1979-1980 showed a change in class units, at both North and South Schools.

The North School consists of one kindergarten (two sessions), one first grade, two seconds, two thirds, and one fourth with a total of 176 students.

The South School consists of one kindergarten (2 sessions), three first, three seconds and two thirds with a total of 234 students.

Because of an additional class at the South School, the library was moved on the stage and has become a very attractive area to which students may go. Both this area plus the library at North were reorganized under the direction of the new elementary library media coordinator.

The use of volunteers has increased considerably this year.

With the closing of the Emerson School, many children from that area were transferred to the South School. This was done in an organized way with very few problems.

Parent-Teacher Councils from both schools joined to bring enrichment programs to the children once again. Theatre Guild for Children and Snakes Alive delighted both the children and teachers.

Academic nights proved to be most successful in the spring with many parents in attendance to see the children's work.

After a three year study the new language arts program went into effect. The Ginn Language Arts Program was selected by a committee of twenty parents, teachers and administrators. A follow-up service program was held in November to instruct teachers on ways to use the new series most beneficially.

ROBIN HOOD SCHOOL

This year, the Robin Hood School is housing one kindergarten class with a morning and afternoon session, two first grades, two second grades, three third grades, and six fourth grades.

Back To School Night was held in September. Each teacher gave a presentation explaining the objectives, and curriculum, and text-books in that particular grade level. Special subject instructors that attended and explained their program included: art, music, physical education, speech and language, and learning disabilities.

The staff has focused their attention on developing a professional center that included materials to improve written and oral communication. Concentration was given to the development of vocabulary, phrase building, sentence structure, and paragraph writing.

Last spring a six week mini course program was offered to all third and fourth graders. The citizens of Stoneham who had a special skill or talent were contacted and asked if they were interested in a mini course project. Twenty three mini courses were offered to the students, some of which included: photography, video-taping, macrame, cooking, first aid, disco dancing, woodworking, decoupage, ceramics, mask making, weaving, drama, and creative writing. At the end of the six weeks, an open house was held so that parents could view what was accomplished.

EAST SCHOOL

The same number of classes were continued at East School. They included one kindergarten with morning and afternoon sessions, two first grades, two second grades and one third grade.

The Media Center operated superbly with cooperative volunteer parents. The classes visited the center on a twice-a-week schedule, once with the teacher and once while the volunteer parents were present. This center has been used to its fullest since it was opened, and the staff feels it has been instrumental in the education of all students at the East School.

In the fall of the school year, the entire school attended the Topsfield Fair.

COLONIAL PARK SCHOOL

The Colonial Park School had another successful year and maintained the same grade level classrooms—one kindergarten with an afternoon session only, two first grades, two second grades, two third grades and one

fourth grade. The staff changed slightly when a fourth grade teacher took a leave of absence to teach in Brazil, South America for one year. The administration developed a new program through Title I, and the kindergarten room was used for a pre-school program.

The media center continued to operate very effectively. The media educator, as part of the Comprehensive Employment and Training Act (C.E.T.A.) program, continued to assist in servicing the teachers' needs while the two head volunteers continued with their responsibilities making the media center a very functional and effective learning center. The media educator's program continued only until the end of November.

The policy of incorporating the best features from both the traditional and open type structures of teaching has been continued at Colonial Park. The staff at Colonial Park has always placed a strong emphasis on teaching the basics.

THE GUIDANCE DEPARTMENT

The major functions of the guidance department are counseling, testing, educational and career planning, and placement.

COUNSELING

Counseling is considered the major function of the guidance department. Individual conferences and/or observations are usually held at the elementary level as the result of parental, staff, or special needs referrals. Secondary counselors have appointments with students whenever it is deemed advisable by the counselor, referred by staff and/or parents or desired by the student. Group counseling is utilized whenever it is in the best interest of the student. Group information sessions are an efficient method of disseminating information and are used whenever individual conferences are unncessary.

Two very successful programs were continued this past year. The peer counseling program on the secondary level and parent groups on the elementary level.

TESTING

The guidance department is resonsible for group testing throughout the Stoneham Public Schools. Individual psycholigical evaluations are ad-

ministered by school psychologists who are members of the special education department. Copies of each child's test results are sent home to parents and copies are also kept in the child's individual guidance folder. In accordance with the student record regulations of the State Department of Education, all materials in the guidance folder are destroyed five years after the student graduates or withdraws from the Stoneham Public Schools. A summary of these regulations is sent to parents each year.

Achievement tests were administered to students in the following grades: two, three and six. Criterion-reference tests in reading were administered to fourth and fifth grade students. Criterion-reference tests, which do not have any numerical score, diagnose the individual student's strengths and weaknesses in a particular subject area. These tests are given in the beginning of the school year to help teachers meet the academic needs of the individual student.

The Differential Aptitude Test and Career Planning Program were administered to seventh grade students. Nine aptitudes are measured by this instrument. A written report interprets the educational and vocational planning implications of the students' DAT scores based on the student's educational goals, his/her expessed interest in fields of work and representative occupations.

The College Entrace Examination Board Tests and the National Merit Qualifying Examination were administered to interested high school students. The Armed Forces Aptitude Test and three different interest inventory tests, Strong-Campbell, Career Assessment, and Harrington-O'Shea, were also available to high school students. Two hundred and six students took the interest tests and had individual conferences for the interpretation of the test results by the career development counselor.

The results by grade level of the Comprehensive Test of Basic Skills are:

Grade	Reading	Language	Mathematics	Total Battery	Norm Grade Equivalent
3	4.7	4.9	4.3	4.5	3.6
6	7.3	7.7	6.4	6.9	6.1

The results of the Scholastic Aptitude Tests of the College Entrance Examination Board given to interested Stoneham High students in the class of 1979 were:

Range	Verbal		Mathematical	
	Boys	Girls	Boys	Girls
Above 700	2%	1%	1%	0%
Above 600	8%	8%	9%	3%
Above 500	22%	25%	33%	29%
Above 400	46%	62%	64%	67%
Above 300	86%	92%	95%	97%

EDUCATIONAL AND CAREER PLANNING

The career development counselor places students in the community to observe and/or attend career conferences in order for the students to become familiar with career and occupations of their choice.

Thirty-five career conferences were held at the high school during the year. Twenty-one hundred sixty-five students participated in these conferences. Students were allowed to attend more than one conference. The conferences this year were built around academic areas. The fields covered were language arts, technical and industrial arts.

The career development conselor gives a program in career development to small groups of students covering three periods for all sophomores and juniors. The Life Decision Making courses taught in grades seven and eight are an integral part of the educational and career planning program.

During the year, representatives from ninety-five schools and colleges visited Stoneham High School to meet with interested students. The high school guidance staff processed twelve hundred eighty transcripts last year.

PLACEMENT

The guidance staff, teachers, and administrators function as an effective team in the placement of graduates. The follow-up of the members of the Class of 1979 indicated:

Four-year Colleges	41.5%
Two-year Regionally Accredited Colleges	13.4%
Other Schools	7.0%
Service	1.8%
Employed	34.5%
Other	1.8%
Total	100 percent

Fifty-eight scholarships worth $35,935.00 were given to members of the Class of 1979, by fifty local businesses, organizations, and individuals.

PHYSICAL EDUCATION & ATHLETICS

The physical education program for the Stoneham Public Schools consists of regular class instruction, intramurals, and interscholastic athletics. All programs are based on the natural interests, basic abilities and the fundamental needs of pupils.

The instructional program in physical education is mandated and given specific time requirements by state legislation. Eleven full-time teachers are employed to conduct programs from grade one through twelve. The teaching staff will instruct almost 100% of student enrollment. Since facilities, equipment, time allotments and teaching loads differ in each grade level; program content and instruction relate directly to these factors. Programs at all levels are co-educational, and every effort has been made to disallow six discrimination practices in the curriculum. Community resources are utilized in complementing programs.

The intramural programs are offered after-school to interested students in grades 5-12. They are basically recreational activities conducted by competent instructors for fun and improvement of playing skills. The programs are completely voluntary and designed to encourage large participation for student enjoyment. The school system is very handicapped by the lack of large game area facilities; therefore, only a limited program is offered when space is available. The large number of students being bussed to the schools becomes a serious participation concern when after-school programs are offered.

The interscholastic athletic program is an outgrowth of the instructional and intramural physical education programs, but designed to challenge the more highly skilled. The present program consists of fifty-six different teams for boys and girls; these are almost evenly balanced. The program is closely regulated by the principals and league athletic directors, and has always been directed to serve educational objectives. Well-qualified teacher-coaches guide the progress of our athletes. Maximum use of school and town indoor and outdoor facilities is made. Equipment is slected to

meet the rigid standards for safety, and great pride is taken in the appearance of the teams. Teams are extremely competitive and enjoy reasonable success in the league. The program is organized and administered with the welfare of the student athlete in mind. The program continues to attract approximately 20-25% of the student body. The variety of activities offered are extensive enough to care for the needs of all who like sports.

One of the most difficult and by far the most important problem faced has been in adjusting program costs to meet budgets. Reductions have been forced in grade 7 and 8 interscholastic programs in boys basketball and baseball. Financing has become critical due to inflation and operational costs, and further reductions may be necessary.

DEPARTMENT OF SPECIAL EDUCATION

The major functions of the Special Education Department in the Town of Stoneham are to evaluate, assess and provide services to students with special needs. Children being served by the department include hearing impaired, visually handicapped, physically handicapped, learning disabled, multi-handicapped, emotionally disturbed, and intellectually handicapped. Four hundred and thirteen children with special needs were served in Stoneham during the 1977-78 school year and that number increased to four hundred and thirty-five during the 1978-79 school year. The number of students serviced by the Stoneham Public Schools has steadily increased during the past two years. The need for specialized placement in private schools outside Stoneham has stablized during the past year, while costs have increased.

Under Chapter 766 and Public Law 94-142, the schools are mandated to deliver services required to assist children in receiving a free, adequate and appropriate public education. All students between the ages of three and twenty-one are eligible for services under these regulations. In compliance with these regulations, a copy of Stoneham's Annual Program Plan for Special Education is on file at the public library for community inspection and comment.

During the month of September, all kindergarten students were screened and those children found in need of services were referred for core evaluation.

The support of the community, parents, teachers, administrators and school committee has allowed the special education department to provide for individual needs of students receiving services.

ART DEPARTMENT

As reported in this space last year, the department's development of the two year curriculum centering on teaching architectural concepts grades one through twelve, has been completed. The objectives — to create and teach units on architecture, archeology, town planning, industrial and interior design, environmental education, and architectural history — were very successfully achieved. Two written curriculums, and exhibit, and a slide archive were the tangible products. This unusual and far-reaching undertaking attracted the attention of the National Turst for Historic Preservation (Washington), the Secretary of State's Office (Boston), the Arts Alliance (Boston) and the Kennedy Center for the Arts (Washington). These organizations requested the curriculum information and a formal presentation of the over-view of the two-year program was presented at the New England Art Education Conference this fall.

Concurrent with this long-range objective, the art department was awarded a Title VI Comprehensive Employment and Training Act (C.E.T.A.) grant which provided several professionals in the field of architecture, preservation planning, art history, history, media (video and photography) and environmental education to enrich the scope and content of the curriculum. The grant money, totaling $200,000, provided services such as identifying local resources in the built and natural environment and developing ways of using these in the classroom for art and social studies departments.

The grant further provided specialists in the fields of art, music, theatre, dance, and photography who gave master classes, worked with the gifted and talented and special education students, gave lectures and demonstrations, arranged field trips, assisted in productions, developed resources for classroom use and in general enriched the course of study in these areas.

The grant began the end of January, extended through September and gave the school system the opportunity for an experimental summer school program in the arts for middle school children. Courses were offered in theatre, dance, photography, music (guitar and piano), painting, and ceramics. The children who participated were very motivated as seen in the high level of continued interest, the daily attendance, the extension of two of the classes through August by student request, and the willingness of the children to perform their routines before a live audience.

Because of the excellent evaluation the program received when monitored by the Comprehensive Employment Training Act (C.E.T.A.) consortium, the school system was awarded an extension which will continue the most successful aspects of the over-all project until July, 1980.

MUSIC DEPARTMENT

The music department was very active during the last year. At the elementary level, the Orff/Kodaly approach provided opportunties for cerativity and improvisation and served as a unifying concept for the elementary curriculum. A comprehensive curriculum guide was completed for the elementary program and the elementary instrumental program. Concerts were presented in each building numerous times throughout the year.

At the junior high level, curriculum guides for the instrumental program and the eighth grade general music program were prepared. **The Wizard of Oz** was presented to an enthusiastic crowd in June involving many general music students.

At the high school, the Spartan Chorale and Band continued to provide a major source of performance bringing much recognition to the school. Collegium Musicum provided an outlet for students interested in chamber music. Curriculum guides for Theatre Arts and the High School Music Electives were completed. The department presented **Oklahoma!** in the spring. Holiday activities included performances at the Prudential Center, Handel's **Messiah** and numerous appearances at local clubs and organizations. The Spartan Marching Band performed quite admirably in the Memorial Day Parade and during the fall football season.

READING DEPARTMENT

The two major functions of the reading department are to give direct service to children and to improve reading instruction by working with classroom teachers.

ELEMENTARY

The reading director met with varying groups of teachers throughout the year in an effort to improve instruction. Workshops were held on questioning skills and on the Duggins method of perceptual teaching skills. The director and members of the reading staff introduced the revised reading skills profile charts to teachers at each grade level. At these meetings the reading staff also presented a time line of reading skills and suggested a method of organization for teaching those skills.

The Alpha Pre-Reading and Language Readiness Program was initiated in the kindergarten program. The reading director and other members of the reading and special education departments held a meeting with preschool parents to discuss prereading and learning skills.

The reading director and two members of the reading staff worked with the language arts committee to correlate the new language series with the reading curriculum.

SECONDARY

The reading director met with the program supervisors of English and social studies to discuss reading in the content areas. In addition, meetings were held with the junior and senior high school principals. The direction agreed upon from these meetings was to work on the intergration of reading skills in the subject areas. The meetings also resulted in the recommendation of a team approach to teaching reading on the secondary level, with a reading specialist being a team member. It was also noted that with the implementation of competency testing, increased staffing on the secondary level might indeed be necessary.

STAFFING

The reading staff continues to work directly with both remedial and selected accelerated students. Each elementary specialist works in at least two buildings. The larger elementary schools have the equivalent of at least one full time person. At the junior high school, there are three reading programs and at the high school, there are two programs for skills work and one for developmental reading.

The reading director took a leave of absence to complete her studies during the remainder of 1979. She was replaced by an acting director of reading.

TITLE I

New testing materials were chosen for the Title I program. The California Achievement Test and the Durrell Listening and Reading Test were selected with the assistance of Research Monitoring Corporation of Portsmouth, N.H.

The Title I summer school completed its third year with great success. Over ninety percent of the students involved achieved mastery of individual objectives chosen for them.

The Title I programs in reading continued at the junior high school, the high school, Central School and South School. East School was added as a Title I target school in 1979. The preschool language development program was continued and Title I funds were used to establish a remedial math program at Central School.

MEDIA SERVICES

The media services department has continued its teacher in-service workshop program in graphics production, with the result of developing teacher awareness of the full potential and utlization of the graphic's media laboratory. This year, a workshop in making of slide-tape presentations has been added.

A new dark room at the senior high school has been opened to aid the new photography courses being offered there.

The cooperation between the library and graphic production laboratory in the junior high school, has made it possible for students using the library to work also in the graphics area during their free time, for projects and class work.

Through work done by members of the media department, the central control room for the junior high school building has been made into a TV studio. This will be a vital facility for training TV crews as well as for producing educational programs for classes.

The media department has been able to use the local Channel 6 Cable facilities to air the program, "The Messiah", put on by the high school music department and videotaped by a student TV production crew. This is hoped to be part of a continued outreach for the community for significant student programs, events, and activities.

NUTRITION CENTER

For the last eight years, the cafeteria department has been able to maintain its cost and personnel so that the price paid by the students of the Town has remained the same. In this same eight years, the program has improved and students are receiving a more nutrious school lunch.

We have also expanded into a breakfast program during this period of time. For $.20 a child at the Central School, Junior High School, or Senior High School may buy a hot nutrious breakfast consisting of milk, juice or fresh fruit, and a choice of a main item such as eggs, French toast, pancakes, bagels, muffins, or cold cereal.

SPECIAL SERVICES DEPARTMENT

Vandalism, both inside and outside of the buildings, continues to be a major concern and amounts to expenses of approximately $10,000.00 annually. This past year, fortunately the school department received reimbursement of $1,127.00 for vandalism on buildings and grounds.

This unnecessary phase of the services projects demands many man hours that could be utilized to maintain the normal upkeep of the buildings and grounds.

As the years go by, it becomes more difficult to maintain the buildings in the condition that was possible a few years ago. Matinenance conditions are proportional with the decline of the number of employees servicing the areas.

The program using the three employees employed under the Comprehensive Employment and Training Act (C.E.T.A.) has been profitable and gratifying.

Employees completed approximately 2200 maintenance and operation projects during this calendar year.

TRANSPORTATION AND SAFETY

State law requires the transportation of school children who live at least two miles from their school. In Stoneham, the general policy is to provide bus transportation for children who live a mile and one-half or more from their assigned school. There are nine buses that make sixty-six trips with over 570 stops, transporting approximately 1,200 students each day, within a total time frame of a little more than three hours.

In accordance with Chapter 878 of the Acts of 1975,. . . . "each student transported in a school bus will receive instruction in safe riding practices

and participate at least twice, in on-bus emergency evacuation drills", Stoneham students have been given adequate instruction to comply with this statute.

Parents are requested to continue cooperating with school principals to encourage their children to walk on the sidewalks provided, respect bus drivers and safety officers, and obey the bus rules and regulations.

Contracted transportation costs have increased because of high operating costs and because of a large increase in the number of pupils with special needs.

EVENING SCHOOL

The Stoneham Evening School has for sixty-nine years offered a wide range of adult education courses for those who wish to use their leisure time to further their knowledge in practical arts, in business or academic subjects, or for recreation.

Approximately forty classes are scheduled one or two evenings per week for ten or twenty weeks, late September through March, at the high school and junior high school buildings. Early in April an Open House is scheduled so that students may exhibit samples of the art work, crafts, foods and fashions done by them during the year.

The evening school program is supported by tuition receipts, local funding, and state and federal reimbursement to the Town. Approximately seven hundered residents of Stoneham and surrounding communities enroll in the courses. Faculty includes two part-time directors, a part-time secretary, and thirty instructors.

SUMMER SCHOOL

A total of sixty-six students were enrolled in the Summer School of 1979. Courses taught were Junior and Senior High English, Junior High Math and Algebra I.

CONCLUSIONS AND PROJECTIONS

The seventies fade away to make for the eighth decade of the twentieth century. We embark upon the eighties with hope and aspirations. Let us

pause for a moment to see where we have been, where we are and where we are headed. The words we hear these days are hostage taking, energy crisis, tax cap, cut in appropriations, and gold selling at $600 per ounce. These items cloud any attempt to concentrate on educational issues and programs. It is certainly difficult to predict what lies ahead for education in particular and society in general.

The superintendent of schools has the responsibility to reflect on the role of education in these trying times. He has an obligation to insure that future generations are not deprived of an education which would be so easy to do because of the present day problems.

If we are not careful, we might allow ourselves to become overwhelmed with the current situations and forget our responsibility to the youth of our community.

Stoneham is a unique community with a student population that has many varied goals and objectives. The educational system must develop a very comprehensive program to satisfy a variety of student needs. Our student population has need for very different kinds of skill training. Some require skills to enter the job market, some need highly technical skills to move to further education, and most need cultural and life education to adjust to the adult world after the school years. In many cases, the needs overlap. The result is that our students require as great a divergence of programs as any school system in the country.

Consideration must be given to the possibility of expanding educational, cultural and personal programs. These include occupational programs, psychological services, health programs, lifetime leisure activities, etc.

Projecting the future needs of education in the current social environment is almost an impossible task. Educational and social needs appear to be increasing as resources are decreasing. There are demands for more services at a time when everyone wants to cut costs.

The student population must be examined as a part of this report and for estimating future needs. In October 1978, the student enrollment was 1769 in the elementary grades (k-6), 962 in the junior high (7-9), and 1161 in the high school (10-12), and 49 ungraded students for a total enrollment of 3941 students. In October 1979, the figures changed to 1720 in the elementary grades (k-6), 912 in the junior high school (7-9), 1128 in the high school (10-12), and 44 ungraded students for a total enrollment of 3804 students. This decrease has been reflected in staff adjustments and reductions.

It would appear that the elementary population will probably level off at about 1800 students. With this in mind, the administration recommended to the school commmittee that consideration be given to adjusting plant facilities to meet those reductions. One elementary school, Emerson, has been phased out of the current program for the present time.

The secondary student population is still relatively large but will stablize after several years of decline. It would appear that this may also level off at 1800 around 1983. Major adjustments have been and will be taking place in staffing in reaction to this decline in the junior high school and senior high school.

The early 1980's should place the school population at about 3700 students. Many factors must be taken into consideration in population projections. The above figures are based on an assumption that the number of homes being built and the Town population will not change, that there will be little or no movement of school age children into the community, and that the birth rate will not make a serious change in either direction.

Over the past several years, we have tried to keep pace with declining enrollments and rising inflation through staff reductions, more effective use of personnel and sharp curtailment in expenditures in the material and equipment areas. Our success in these endeavors is demonstrated in the statistics released by independent agencies which show that our school system maintains high student/professional staff and student/classroom teacher ratios, and a relatively low per pupil cost, when compared to neighboring and comparable communities.

In our efforts to provide a diversified education for our students, we have continued to expand our career and vocational education programs and have continued to maintain a strong academic program. Effort is being made to improve and enlarge our cultural program which has been done by increase offerings in art, music, drama and dance.

Energy use and costs have become a vital part of our planning. In 1978-79, our cost per gallon of fuel oil averaged 42.2 cents. The estimated cost this year will be 85 cents. Based on this cost, we estimate our cost for oil to be $238,000 against a budget of $135,000. This has created a tremendous problem for the School Department.

We have already taken steps to conserve energy by disconnecting approximately one-third of all fluorescent lighting in the classrooms and installed phantom tubes and watt-saver tubes. We installed new number 2 oil burners, which are more efficient, in all schools. Additional insulation was installed during all roof repair. A computerized building energy monitoring system, which will save fuel and electricity, has been installed at the junior

high school. Energy saving shower heads have been installed in all shower units. These measures have resulted in a savings of about 15% of the energy consumption.

As superintendent of schools, I wish to acknowledge the dedicated service of the entire staff of the School Department in providing an environment that leads to improvement, achievement, creativity and academic excellence.

Appreciation is especially given to parents, students and citizens who have volunteered for committee work and for other special efforts along with the United Councils, School Councils and Parent-Teacher League, the Stoneham School Committee, Self-Study Committee, Stoneham Public Library, Finance and Advisory Board, Public Works Department, the Town Clerk, the Town Treasurer, the Town Accountant, Police and Fire Departments, other representatives of local government, Eastern Middlesex Guidance Clinic, Project SEEM (regional special education agency), the Stoneham Teachers' Association, the League of Women Voters, the Booster Club, Atlantis, Feasibility Study Committee and the citizens who supported their recommendations at the Town Meeting, and all other departments, agencies and individuals who have given time and effort or have otherwise cooperated with the schools.

Finally, with all the crisies facing the School Department, it is our belief that the citizens of Stoneham are receiving the best possible education for the money invested.

Respectfully submitted,

DANIEL W. HOGAN, JR.
Superintendent of Schools

Unicorn Recreation Area

April, 1979 the twenty-one man Unicorn Committee was terminated and a new nine person Unicorn Recreational Area Committee was appointed by the Selectmen. The present members are: Jon T. Hayes, Robert F. O'Neil, William Jackson, Robert Boulay, William Dawson, Paul Roach, Jerry Crosby, Dot Kozlowski and William Barry.

STONEHAM ARENA

For the first time during our closing period of the Arena a Home Show and Furniture Display was held yielding a rental fee of $5,250.00. In the future the Arena management is hoping to promote more of these dry floor events. Four Summer Hockey Schools were conducted during the month of August. they are scheduled again for August 1980.

FINANCIAL REPORT:

Fiscal year July 1, 1978 thru June 30, 1979:

Income	Expended	Profit
$177,740.20	$163,674.48	$14,065.72

Comparative profit and loss statement July 1 thru Dec. 31, 1979 & 1978:

	Income	Expenses	Profit to date
1979	$ 94,200.66		
	11,435.00 accounts receivable		
	$105,635.66	$98,566.98	$ 7,068.68
1978	$ 75,928.05		
	17,061.65 accounts receivable		
	$ 92,989.70	$68,671.88	$24,317.82

Because of the energy which has increased 50% the Stoneham Arena will not show the profit of last year but we are hoping to be able to return a small profit to the town. A rate increase is scheduled for fiscal year 1980/81.

UNICORN GOLF

FINANCIAL REPORT:
July 1 thru Dec. 31, 1979, 78

	Receipts	Expenses	Profit
1979	$74,881.92	$59,421.60	$15,460.32
1978	$72,882.25	$57,993.25	$14,889.00

Profit & Loss Statement Jan. 1 thru Dec. 31, 1979 and 1978

Course Opening Date	Course Closing Date	Rounds	Revenue	Expended	Profit
Apr. 7, 79	Nov. 25, 79	37,046	$126,629.42	$106,305.58	$20,278.84
Apr. 15, 78	Nov. 20, 78	33,177	$114,546.76	$ 98,281.29	$16,265.47
Apr. 2, 77	Nov. 28, 77	36,660	$114,772.23	$ 86,042.99	$28,729.24

Due to the excellent way the Superintendent of the Golf Course, Steve Hoisington and his staff has maintained the Golf Course the Unicorn has been able to increase its rounds of play and revenue over any previous year.

Vandalism is still a problem even though no trespassing signs have been posted.

As in the past years, winter snow activities attracted many residents to the golf course during January, February and March of 1979. Sledding, snowshoeing and cross-country skiing were also popular sports.

ANNUAL REPORT OF THE DENTAL HYGIENIST — 1979

The school dental survey has been interrupted this fall due to the introduction of the fluoride rinse program to the first and second grades. Because preparation for this program has been quite time consuming, the school survey will be completed in the new year of 1980.

The number of children receiving dental examinations during 1979 was 983.

There were 21 bus trips to Middlesex Community College Dental Clinic and 530 students participated in this program. Of these, all had oral prophylaxis and 520 students had fluoride applications. All 530 students received oral hygiene instructions given by the student dental hygienists.

For four Wednesday mornings beginning March 7th, four student hygienists from Middlesex Community College came to Stoneham to instruct the kindergarten and first graders in dental hygiene.

This program is part of the teaching course at Middlesex Community College.

Thirty-five students visited Dr. Smallcomb's office during the school year. They received the following:

138 fillings
20 extractions
60 x-rays
57 novacaine injections
35 dental examinations

In the Town Hall Dental Clinics 35 students received oral prophylaxis and 30 of the children also had fluoride applications (on parental request). As stated previously the first and second graders whose parents requested it are receiving weekly fluoride rinses. This is a new program and most of the 1st and 2nd graders are participating.

This program is being carried out with the help of volunteer mothers and teacher aids. To these people I extend my sincere appreciation and thanks.

I also wish to thank the School Department and the Board of Health for their help and cooperation throughout the year.

Respectfully submitted,

Patricia C. Holbrook, R.D.H.
Dental Hygienist

REPORT OF THE HEALTH OFFICER

I hereby submit my report for the year 1979.

The following number of inspections were made for cleanliness and sanitary conditions during the year 1979:

Restaurants and luncheonettes	168
Ice Cream Manufacturers	29
Bakeries	7
Grocery and variety stores	87
Caterers	7
Mobile Food Servers	9
Home for Aged	2
Nursing Homes	4
Commissaries	7
Motels	2
Swimming Pools	12
Kindergarten and Nursery Schools	9
Public and Private Schools	18
Milk Plants	2
Keeping of Animals/Fowl	9
Riding Stables	5
Hospitals	5

Products removed from stores because of damage, out of code, etc. during the year 1979:

81 lbs. assorted meats
15 lbs. bacon
22 lbs. frankfurts
12 lbs. knockwurst
6 lbs. yogurt
47 tubes frozen rolls
9 lbs. cream cheese
12 lbs. produce
17 lbs. assorted cheese
15 lbs. cottage cheese

I receive and investigate complaints of cesspools and septic tank overflows; the illegal keeping of animals and fowl in restricted areas; odors from brooks, drains, etc.; smoke and soot nuisances from factories and the burning of rubbish and garbage; rat and bat complaints; unsanitary conditions in public places, pollution of brooks; insufficient or no heat complaints and many others of health importance. I made 69 inspections on new homes in order to issue occupancy permits.

I was very fortunate in having a C.E.T.A. worker Mr. James Bazinet assigned to my office March 14, 1979 to assist me with my inspections and complaints and to take my place when I am on vacation or absent because of illness. Mr. Bazinet has become a very valuable asset to our health staff.

There have been numerous occasions where I requested assistance of other town departments, among them the building, wire and plumbing inspectors and the fire and police departments. Many times I have called upon the experience and advice of the superintendent, the engineers and the workers of the public works department. I have always found them all to be very cooperative and I wish to express my gratitude to them at this time.

I also wish to thank the members of the Board of Health and the entire health staff, as well as my fellow townspeople, who have given me great support during this past year.

Respectfully submitted,

Frederick F. Mosley
Certified Health Officer

Annual Report Of The Audit Advisory Committee

To the Honorable Board of Selectmen and Residents of Stoneham.

In March, 1979, the Board of Selectmen appointed Robert N. Lusardi, John B. Cole, Stephen J. Szabo, Jr., and Ronald W. Trachtenberg to serve as members of the Audit Advisory Committee.

The Audit Advisory Committee was appointed by the Board of Selectmen in accordance with the vote under Article #51 of the 1978 Annual Town Meeting Warrant. The purpose of this Committee is to assist the Board of Selectmen in engaging an independent public accounting firm to conduct an audit of the Town's books and records.

The Committee is charged with the responsibility of developing the scope of an audit and requesting proposals from interested independent public accountants. The books and records of the Town were last examined by the State Bureau of Accounts on June 6, 1977.

We determined that an examination would include all funds and account groups of the Town, including the Retirement Fund, and the financial records of the Treasurer and the Town Accountant, for the period July 1, 1978, through June 30, 1979. The examination shall be made in accordance with generally accepted auditing standards and shall include such tests of the accounting records and such other auditing procedures as considered necessary, and insofar as practical, shall be in conformance with the American Institute of Certified Pubic Accountant's Industry Audit Guide, "Audit of State and Local Government Units." The examination will be for the purpose of expressing an opinion on the financial statements.

The examination shall be in compliance with the general laws of the Commonwealth of Massachusetts, the requirements established by the Bureau of Accounts, Department of Revenue, Commonwealth of Massachusetts, and the requirements of the Office of Revenue Sharing, United States Department of the Treasury, Washington, D.C., as they pertain to the Revenue Sharing and Anti-Recession Assistance programs, and the Department of Housing and Urban Development (HUD) as they relate to the Community Development Block Grant Act (CDBG).

An examination of the Town's internal controls, accounting policies and procedures, including the Town's National Cash Register (NCR) Century-101 Computer System installation, will be performed.

Our Committee met numerous times to discuss the role and responsibilities of an independent auditing firm and how the requirements of an audit would interface with the various Town departments. After reviewing various Federal guidelines, documents and reports from the other local municipalities and the Town's requirements, the specifications for an audit of the Town's books and records was completed and advertised.

A joint meeting between all bidders and various Town officials was held to ask questions and discuss various procedures of the audit. On August 17, 1979, the Board of Selectmen, based upon the recommendation of our Committee, awarded a contract to the lowest bidder, Arthur Andersen & Co. The audit commenced in late August and was completed in mid-November. All aspects of the audit and reports were completed in accordance with the specifications.

The Committee was pleased with the manner in which the audit was conducted. It is the hope of this committee that the recommendations contained within the reports will be implemented within a reasonable period of time. This Committee recommends that an audit be undertaken at least once every three years.

Finally, our Committee would like to extend our appreciation to all

Town Officials and employees, who were instrumental in the successful completion of this audit.

Respectfully submitted,

Robert N. Lusardi, PA, Chairman
John B. Cole, CPA
Ronald W. Trachtenberg, CPA
Stephen J. Szabo, Town Accountant

Annual Report Of The Data Processing Coordinator

I hereby submit my report for the year ending December 31, 1979.

The computer applications being processed, at the present time, include the Town Payrolls, the Budgetary Accounting from the Town Accountants office, the Inventory of the Town departments and the School Department.

The following functions are in the process of being completed: The Town Water Billing, various applications of the Town Clerks office. The tabulation, for the various Town elections, is also run on the computer system.

Respectfully submitted,

William F. McCall
Data Processing Coordinator

Annual Report Of The Personnel Board

To the Honorable Board of Selectmen:

With the exception of Employee Representative, Jim McDermott, all of the current members of the Personnel Board are new.

Not new, however, to the mechanics of municipal government, since three of the five Personnel Board members have many years of previous experience on the Finance and Advisory Board.

This year, in addition to much regular weekly business, one of the priorities of the Personnel Board is to update the Personnel By-Law Booklet. Each section of Chapter 10 will be reviewed for possible additions, revisions, or clarification of language. The long-range target date for the completion of this project is the October, 1980 Town Meeting.

The Personnel Board meets, on a regularly scheduled basis, every Tuesday evening in Room 5 of Town Hall . . . and . . . we welcome public attendance at our open meetings.

Personnel Board members and the expiration of their terms of appointment are as follows:

Bruce A. Willis, Chairman	1983
James J. McDermott, Jr., Vice-Chairman	1981
Sheldon (Mike) D. Goldberg	1982
Annamae Arsenault	1984
Ronald A. Junker	1980

Respectfully submitted,
Bruce A. Willis, Chairman

Annual Report Of The Planning Board

To the Citizens of Stoneham:

The Planning Board held twenty-two regular meetings and two public hearings this year. Thirty-nine plans were signed "approval under the sub-

division control law not required." Delegates attended a Spring and Fall conference of the Massachusetts Federation of Planning Boards. In April we welcomed Susan Callahan to the board and at our reorganizational meeting June 6, 1979 elected the following officers: Albert B. Conti, chairman; Ronald W. Slocum, vice-chairman; John R. Cullen, secretary.

We are proud to present our new zoning map drawn to scale. Since 1970 the Planning Board has been requesting funds to update our 1967 zoning map. In 1978 we received the necessary monies and are now presenting this map in the form of an article for acceptance as our official town map. This endeavor is the result of many hours of research by our town engineers plotting various changes voted at town meetings. We feel that this map represents a true and accurate interpretation of all zoning amendments and well worth waiting for. This map is an essential tool for many departments and will improve the records of the town. Because of the importance of this article, we are giving it the widest possible notice and making copies of the map available to all residents to enable all to review it in detail.

The board has initiated a program of zoning review and will reexamine all present zoning districts. We have been actively supporting the revitalization efforts for the square and have committed this board to assist wherever possible.

Your Planning Board will continue to strive for maximum citizen involvement in its activities and invites people with any interest in town planning; square revitalization; zoning; or any other area of expertise, to volunteer their service.

We wish to thank the officers, boards and committees for their cooperation and look forward to their continued support. A special thanks to the Department of Public Works for their dedicated service and conscientious application to the troubled subdivisions which were successfully completed with their able assistance.

Respectfully submitted,

Albert B. Conti, Chairman
Ronald W. Slocum, Vice-Chairman
John R. Cullen, Secretary

Annual Report Of The Collective Bargaining Board

To the Honorable Board of Selectmen:

In 1979, due to the resignation of three members and one termination of appointment, the Collective Bargaining Board realized several membership changes.

Despite this, the present Collective Bargaining Board is working on a current fiscal year basis with all of the collective bargaining agreements presented, approved and funded at town meeting through June 30, 1980.

The Collective Bargaining Agents are in the process of negotiating with five of the six collective bargaining units for new contracts effective July 1, 1980. As of this writing, future negotiations have not commenced with the Police Association because no proposals have been received.

In September of this year, Stoneham was selected to participate with eleven other cities and towns in a new innovative "Cooperative Approach to Collective Bargaining" workshop. This program is sponsored by the Massachusetts Municipal Association (an affiliate of the Massachusetts League of Cities and Towns) and includes monthly meetings with representatives from surrounding communities to collectively exchange and share information relative to the collective bargaining process. The initial group meeting for this was hosted by Stoneham's Collective Bargaining Board and proved to be most successful.

Collective Bargaining Board members and the expiration of their terms of appointment are as follows:

Bruce A. Willis, Chairman	1983
Sheldon (Mike) D. Goldberg, Vice-Chairman	1982
Annamae Arsenault	1984
Ronald A. Junker	1980
Steven D. Carter	1981

Annual Report Of The Council on Aging

The year 1979 saw a period of vastly increased activity for the Stoneham Council on Aging.

This rise in activities resulted partly from the help of additional staff supplied by the Medford CETA Consortium, partly from increased unpaid overtime hours by the Council's permanent staff of three and the continued assistance of the 11-member Council on Aging. But the big bulge in activities has been occasioned — most significantly — by a rise in elder volunteer services. Without this assistance, the Stoneham Council on Aging could not function.

According to the Department of Health, Education and Welfare, the fastest-growing segment of the American population is women, age 65 and older. In 1977 there were 13.5 million such women in the United States, compared to 9.5 million men in that age group.

Projections indicate that in the year 2035, there will be 33.4 million women over 65, compared to 22.4 million men.

In 1976, 17.6 percent of women age 65 or older lived at or on the poverty level, as did 15 percent of the men in that age group.

These statistics are important because they provide the data necessary to elaborate on what the future for Stoneham's elders is likely to be — and because they indicate the growth which elder affairs will take in the coming decade. At this point, it seems reasonably safe to assume that the American elder population is going to explode, and Stoneham will experience that enormous growth — with its accompanying growth in the need and demand for elder services.

The Stoneham Council on Aging is now providing an estimated **duplicated annual** service volume in excess of 40,000 to Stoneham's elder population of about 3500.

Significant among these activities during 1979 have been:

• The creation of a monthly, 2,000-circulation elder publication, the **Stoneham Sentinel,** which is designed for and made available to Stoneham's senior citizens free of cost to them and to the town.

• The provision of some 13,000 hot meals to Stoneham's elders each year.

• An annual 7,800 transportation calls are made, for vital needs such as medical visits, as well as essential socializing and recreational pickups.

• At least 2,500 volunteer opportunities are provided each year for Stoneham's senior citizens and this category is experiencing astonishing growth.

The aging process is, alas, a universal one — and in some cases a devastating one. The slow (or rapid) deterioration of strength and faculties, the passing of friends and family, the isolation which aging sometimes entails, the rapid changing of social touchstones are just a few of the negative aspects of advanced age. Disease, poverty and debilitation are a few more. We all come to it (unless we die young) and we must keep an eye to the changes which the expansion of the elder population will bring to our society.

Never before has the need for a full-time paid administrator for the Council on Aging been more apparent. The immediate future holds the absolute need for the establishment of this position, to insure the continuation of the Stoneham Council on Aging as a viable and significant contribution to the physical and mental well-being of Stoneham's senior citizens.

Annual Report Of The Youth Commission Office

Honorable Board of Selectmen
Citizens of the Town of Stoneham

The Youth Commission was established under Chapter 40, Section 8E of the General Laws of Massachusetts, which was accepted by vote of the Town Meeting December 1969.

It is primarily a coordinating board. The commission's basic concerns are: to work with existing community groups, to supplement available programs, to help the youth of the town obtain employment and to research and sponsor new programs.

Rent-A-Kid

Rent-A-Kid program was started in April 1973. It is a concept of odd job employment with individuals and local businesses. The over-all objective is to provide youths between the ages of 13-18 with odd jobs. It functions as a referral service. Any Stoneham youth between the ages of 13-18 may register for the program. There is no fee to the youth or employer for the service.

From January 1, 1979 through December 31, 1979, 164 youths were enrolled in the program. Upon receiving parental permission, these youths were placed in a total of 149 jobs. Employers from Stoneham and surrounding communities are satisfied and continue to use the service.

Drama Workshop

Anne Barbieri conducted another successful Drama Workshop at the high school. Over 38 boys and girls aged 7-14 spent six weeks exploring and enjoying, theatre games, lighting, sets, makeup and other activities connected with theatre. A guest entertainer and a trip to the North Shore Music Theatre were part of the program. "The Tiniest Heart" performed on the stage of the high school for parents and friends climaxed the program. Each year the young people look forward to this Drama Workshop with great anticipation and enrollment increases annually.

Babysitters Course

The Youth Commission and Red Cross co-sponsored a Baby Sitters

Course for Girl Scout Troop No. 402. Maryellen Zuk and Florence Surette, Troop Leaders, had twenty scouts enrolled in the course.

Captain Frank Gould, Fire Dept., Officer Albert Duff, Police Dept. and John Wilson, R.N. were the instructors.

Material for the course was supplied by the Red Cross. The program was coordinated by Mary Wiley, Youth Commission. Successful candidates received a certificate from the Red Cross. This was a community project with cooperation from all participants.

Summer Gym Program

The summer gym program was conducted five nights a week at the high school. Tom Mayo and Charles Balboni directed this program. 100 boys and girls were registered in the eight week program. Floor hockey, basketball, badminton, ping-pong, volley ball and soccer were among the favorite sports. A beach barbecue rounded out a very enjoyable program.

Winter Gym Program

All programs were suspended until legal technicalities could be settled. Prior to this year, youth workers were paid as outside contractors. Since the change in the law, all youth workers will have to become temporary seasonal town employees until the end of the fiscal year.

Job descriptions will be written for youth workers. These job descriptions will be on the warrant for the Annual Town Meeting in April 1980. A spring gym program will be conducted in March of 1980, two nights a week at the Central School.

Girls Gymnastics

Cynthia Carbone and Nancy Adams conducted a gymnastic clinic at the junior high school for girls ages 7-17. Beginners, intermediates and advanced students participated in the month long program. Instructions on uneven bars, balance beam, vaulting, tumbling and trampoline were given in this program. Fees received in this program go towards equipment for a future girls gymnastic team.

Referrals

Much of the work of the Youth Commission is information and referral, regarding youth activities, school information, library. General knowledge of various town, school and community activities are handled by this office.

Stoneham Summer Theatre

The Youth Commission was instrumental in helping a group of college

age Stoneham alumni implement a summer theatre group. These students studying theatre arts and music produced "Godspell" at the high school on August 2nd, 3rd and 4th.

The young people who conceived and created the summer theatre group deserve special notice. The entire Youth Commission takes particular pride in last summer's end result and looks forward to working with this group during the coming year. The Youth Commission urges that all residents try to attend next summer's production and become a part of what is specially good in our community.

Coordinated Youth Services

The Youth Commission continues to coordinate and sponsor meetings of the CYS. Representatives of youth agencies meet periodically to discuss mutual concerns and to share ideas. The goal is coordination and cooperation among human service providers and the minimumization of duplication. The ongoing result is comprehensive and quality services for the youth of Stoneham.

The Youth Commission was represented at the Board of Health meeting concerning Drugs and Alcohol and our schools.

The Youth Commission was represented at the Board of Selectmen, Finance & Advisory Board, Personnel Board and with the Town Counsel in order to clarify positions for youth workers.

We would like to thank Mr. Daniel Hogan and Mr. Leslie Kannheiser of the School Dept. for their cooperation and assistance in allowing us the use of the schools to run our programs. Also to Mr. Edwin Fortini, Council on Aging, for storing unused equipment.

Stephen E. Chiulli, Chairman

Annual Report Of The Public Librarian

This is the 120th annual report of the Stoneham Public Library covering the calendar year 1979.

BUILDING PROGRAM

As a matter of expedience during this year of fiscal austerity, the Board of Library Trustees withdrew the warrant article for the construction of a new facility. At this point in time it is a rare citizen who is unaware of the obsolescence of the current building. The vocal minority who have opposed attempts to rectify this matter in the name of fiscal restraint should realize that as costs continue to climb this problem will simply not disappear.

PROGRAMMING

In addition to providing meeting space to twenty-five separate organizations in the community, the library presented a variety of programs for all age groups during 1979. Highlights of the year included the introduction of a circulating super 8mm movie collection, the annual Great Books program open to all citizens, return visits by musicians John Tavano and the Ed Proodian String Quartet, a major display of works by the Stoneham Camera Club, and a lecture by Elizabeth Winship of "Ask Beth" fame. Local resident Loraine Fortini graciously provided tax assistance at the library during March. Besides presenting a slide and sound program designed to encourage reading to junior high students, Mr. Williams was the featured speaker at the February meeting of the Stoneham Women's Club, and the March meeting of the Women's Auxiliary of the New England Memorial Hospital. Since 1976 Reference Librarian G. Schultz has given tours of the library and borrowers' cards to over 1400 Stoneham students. In this fourth year of the program 338 youngsters participated. Our passes to the Museum of Fine Arts continued to be used by many Stoneham residents. It is possible that we may expand this program to include other museums in the coming year. All citizens can take pride in the work being done by the staff of the children's department. During Mrs. Sullivan's tenure as children's supervisor, she and her staff have worked steadfastly and successfully to bring more children into the library and to encourage reading. It is not surprising that the circulation of materials in this department has increased more than twenty percent since Mrs. Sullivan's appointment in early 1978.

PERSONNEL

In 1979 the library welcomed as new pages Angela Binda, Linda Heuman and Karen Ross.

In 1979 Mr. Williams attended the American Library Association conference in Dallas and was elected to the executive board of the Greater Boston Public Library Administrators.

The Board of Library Trustees at the annual town meeting opposed the Personnel Board's wage and classification plan for library employees. The town meeting subsequently endorsed the Trustees' recommendations although some positions continue to be funded at a rate less than those of libraries in surrounding communities.

FRIENDS OF THE LIBRARY

Special thanks this year goes to the Friends of the Library for providing materials to redecorate Library Hall. Poets' night this year saw the greatest participation ever. Once again the semi-annual book sales sponsored by the Friends in May and October enabled us to distribute a library information brochure through the local newspaper.

GIFTS

The library has been the recipient of various book and cash contributions throughout the year. A special thanks is extended to these groups and individuals for their generosity especially the Stoneham Redmen, the Stoneham Rotary Club, the Stoneham High PTL, the Stoneham Women's Club, the Tops and Mr. and Mrs. Robert McCumber of Marble St.

Annual Report Of The Stoneham Historical Commission

To the Citizens of Stoneham:

The Stoneham Historical Commission is the public agency responsible for the preservation, protection and development of the historical assets of the community. During the spring and summer months of 1979 the Commission sponsored an architectural historian to conduct an inventory to identify and record the architectural and historical resources of the town. Funded through a $4,000.00 grant from the Massachusetts Historical Commission and matching local funds, over 500 structures built before 1900 were documented.

In September of this year the Commission had the honor to nominate over 200 structures to the National Register of Historic Places. The Register is the official list of our nation's historical and cultural resources worthy of preservation. When a property is listed in the National Register, a private property owner in no way gives up his rights of ownership nor is his treatment or use of the property restricted. Rather, the National Register is a distinction and a planning tool used to stimulate local awareness of a community's historic and architectural assets, arouse interest in finding alternative uses for distinctive buildings, and encourage appropriate treatment and maintenance of significant districts within a town.

The Commission is presently attempting to raise $18,000.00 to produce and publish a narrative history on the Town of Stoneham. A combination of early maps, photographs, diaries and new text will provide a graphic account on the evolution of the town and its changing landscape. The Commission has received a $5,000.00 grant from the Massachusetts Historical Commission and raised another $5,000.00 from local sources. In the ensuing months the Commission hopes to raise the remaining $8,000.00 and publish the booklet by the Fall of 1980.

Stoneham must depend on you, its citizens, to keep, maintain and preserve this unique heritage and source of her pride.

The Stoneham Historical Society acknowledges and thanks the Town Departments and Townspeople for the financial assistance this year so that research and preservation projects may properly be continued within the Historical Museum.

This year the schools have worked closely with the Historical Society through the "Arts in Residence Grant" earned by the schools. Costumes, belonging to the Society were studied and photographed with plans for a booklet to be made. Small and medium sized pictures were filed in a three drawer file with proper listing of them for ready reference. Many local views have been photographed. Some of these have been taken to give identity, in 1979, and to compare with old views taken on early glass negatives or on Stereographs. These will make Historical research more valuable in the future.

The one room shoe shop continues to be an attraction of the early craft when shoes were made entirely by hand. It is a separate Museum on the property of the Historical Society.

Students have come to the Society to trace their roots or to read about the early data of their house and to possibly find a date of origin of their home. Visitors have come from other states and many have been college students doing research on a particular phase of early industry here.

Historical interest in our town has increased since the events and exhibits of the 250th Anniversary of the Town in 1975.

Annual Report Of The Stoneham Fire Department

Mr. Michael Rolli, Chairman
Honorable Board of Selectmen
Stoneham, MA 02180

Dear Mr. Chairman:

I respectfully submit the 1979 report of the Fire Department.

The Department is structured as follows:

Fire Chief — Raymond L. Sorensen

Group I — Captain James McDermott, Lieutenant George Downes, James Halpin, William Dockery, William Kelley, Stanton Waite, Samuel Earle, Robert Dunphy, Gerald Crosby, Douglas Griffin, Walter Johnson, William Bambery.

Group II — Captain William Abbott, Acting Lieutenant Robert Marshall, Paul Bears, James Regan, David Bettencourt, Paul Burditt, William Crosby, William Carr, John Scullin, Milo Ingalls, Scott Webber.

Group III — Captain Frank Gould, Lieutenant Charles Fitzgerald, Russell Holden, Kevin Wynne, Edward Manuel, Frank Brown, Charles Greenleaf, Richard LeBlanc, John Fullerton, Robert Kirby, Brian McMahon.

Group IV — Captain George Emery, Lieutenant William Meegam, Joseph Lally, George Sowyrda, Robert O'Melia, William Kullman, Charles Antinoro, Leon Curley, Paul Courtenay, Michael Murphy, Richard Marengi, James McLaughlin.

Fire Prevention Officer — Captain William McLaughlin

Fire Department Secretary — Judith Cronin

The motorized equipment consists of:
Engine 1 — 1977 Pirsch 1000 gallon per minute engine
Engine 2 — 1973 Pirsch 1000 gallon per minute engine
Engine 3 — 1977 Ford 300 gallon per minute engine
Engine 4 — 1962 Dodge 200 gallon per minute engine
Engine 5 — 1952 Seagrave 750 gallon per minute engine
Ladder 1 — 1969 Pirsch 85 foot aerial ladder
Chief's Car — 1979 Pontiac
Fire Prevention Car — 1972 Chrysler
Fire Alarm Truck — 1969 Ford Bucket Truck

All motorized equipment is completely stripped each year and preventive maintenance is performed on all compartments, chassis and equipment.

Fire Department Statistics:

Box Alarms	359	
Still Alarms	1587	
Total	1946	
The amount of property endangered by fire		$ 7,043,300.00
The amount destroyed by fire		136,932.00
The amount of insurance paid		132,382.00
The amount not covered by insurance		4,550.00
The amount of fire damage to Motor Vehicles		53,225.00

Fire Department Status:

The number of emergency calls answered this year reflects a 10% increase over 1978.

There were many additional runs for motor vehicle accidents and fires on Route 93. The "Jaws of Life" were used several times in extricating victims from wreckage. This highway is heavily travelled and is used as a funnel for all types of hazardous cargoes. The Stoneham Department has already participated in two spectacular tanker fires.

The Department was able to hold most fire losses in our Community to a minimum.

Fire Prevention:

This Department is attempting to put more and more emphasis on the prevention of fire.

Many programs were given in the Nursery, Second, Third and Sixth Grade levels of the School system by Captain William McLaughlin.

All schools, nursing homes and hospital were each inspected four times and over 250 businesses received an annual inspection. These inspections were conducted by firefighters while remaining in service at all times.

Special inspections were also conducted on numerous smoke detector, oil burner, standpipe and on site inspections of large developments.

In December, over 100 inspections were done in Apartment house lobbies, Stores, Restaurants and public buildings to make sure that flammable decorations were not used.

I believe that the programs, inspections and frequent visibility of the Fire Department have already made an impact on making Stoneham a safer Town.

There is no doubt that fires will always occur but through good fire prevention practices coupled with effective fire suppression methods, their impact may be diminished.

Retirements:

There were four retirements in the Department this year, Firefighter Warren Newcomb served for 34 years, Lieutenant Robert Marshall for 33 years, Lieutenant William Meegan for 30 years and Firefighter Henry D'Entremont for 26 years.

Their many years of experience in responding to emergency situations will certainly be missed. All four contributed much to the day to day operations of the Stoneham Fire Department.

Conclusion:

I would like to thank all Boards, Committees, Members of the Fire Department and the citizens of Stoneham for their cooperation throughout the year.

Respectfully submitted,

Raymond L. Sorensen
Fire Chief

Annual Report Of The Stoneham Housing Authority

Board of Selectmen
Town Hall
Stoneham, Massachusetts

Honorable Board of Selectmen:

In compliance with Section 29 of Chapter 121B of the General Laws, the Stoneham Housing Authority respectfully submits its report for the year ending December 31, 1979. Lawrence F. Hurley was re-elected a member of the Stoneham Housing Authority at the Annual Town election on April 3, 1979 for a term of five (5) years. This term will expire in 1984.

On May 2, 1979, Byron J. Matthews, Secretary of the Executive Office of Communities and Development, appointed Catherine Salvage, as the State Representative on the Stoneham Housing Authority, to fill out the term of Helen Walker, who resigned when she moved out of Stoneham. This term is to run to 1981. At the regular meeting of the Authority, on April 10, 1979, the Authority voted to organize as follows:

Chairman	Lawrence F. Hurley
Vice Chairman	Edwin D. Fortini
Treasurer	John M. Rolli
Assistant Treasurer	James J. Fougere

The Authority has continued its program of improved outdoor-lighting at the Washington Avenue Elderly project. The purchase of a new Ford-Pick-up-Truck has been approved by the Department of Community Affairs. The truck is much in use and is essential in clearing snow from the Authority roadways during the winter.

The second half of the Termite Control program at Calthea St. Veterans project has been completed. The Authority has completed its Annual Review of tenant incomes. New rents will be computed on the basis of family income size and composition. The rents established, will take effect on April 1, 1980, and will continue in effect, except, where temporary reductions are granted in cases of hardship.

The Authority is particularly grateful to its office and maintenance staff for the excellent condition of each of the projects. The Authority wants particularly to commend the work of Mrs. Frances Kenney, the of-

fice manager, Mrs. Virginia Sampson, the office clerk and Henry Sampson, the maintenance supervisor.

Again, the Authority is indebted to the Public Works Department for all the assistance it received from William Reid, the Superintendent and all the Public Works employees.

For many years, the Stoneham Public Library has been supplying books for the Elderly Projects. They keep the shelves well-stocked with the latest books. This is much appreciated by all the Elderly Tenants.

Respectfully submitted,

William L. Curran
Executive Director and
Secretary

Annual Report Of The Department Of Veterans Services

Board of Selectmen
Town of Stoneham, MA 02180

Honorable Board of Selectmen:

The sum of $62,500.00 was appropriated for Veterans Benefits at the Annual Town meeting for the fiscal year July 1, 1979 to June 30, 1980.

As of December 31, 1979, $12,373.79 has been expended. Of this $5,642.76 has been for family living expenses; $790.52 for fuel, $828.50 for Doctor's visits; $324.66 for Medicine; $4,502.84 for hospitalization and $284.50 for miscellaneous.

Persons who are eligible for assistance under Veterans Benefits are Veterans, their families, and under certain conditions the parents of Veterans.

It is the practice of the Veterans Office to assist Stoneham Veterans and their dependents to make use of all available financial aid programs. This includes Medicaid, S.S.I. Fuel Assistance, Social Security, Compensation, Pensions, etc. However, these programs do not cover all the needs of Veterans. Without the assistance of Veterans benefits, many Veterans would not receive the help they badly need. This is particularly true of very expensive Medical attention.

One half of the money expended under Veterans Benefits is reimbursed to the town by the State Commissioner of Veterans Services.

The prospects for the second half of the fiscal year are very uncertain in face of the continued predictions of a recession, but this can very well call for an increased expenditure for food, rent, fuel and medical and dental assistance.

At the present time the local Veterans Office is cooperating with the Veterans Administration in an outreach program for Viet Nam Veterans in need of educational and counseling help.

Also included in Veterans Activities are the Memorial Day Committee and the Care of Veterans Graves.

The Memorial Day Committee will operate this year with a decreased budget. The appropriation for one band has been cut from the customary $3,200.00. This will require the Committee to revise its program for the observance of Memorial Day.

The care of Veterans Graves continues with Wallace C. Dunbar as Inspector of Veterans Graves. No increase has been requested in this budget for many years. The money is used for annual care at the Lindenwood and St. Patrick's Cemeteries for graves that would otherwise be uncared for.

I particularly want to call attention to the services of Mrs. Gertrude Hamill in this department.

She has now completed 18 years as Veterans Service Clerk. Her knowledge of all the available programs for Veterans and their families, and the help she has given to all the people who come into this office seeking advice and assistance is of great value to the Veterans of Stoneham.

Very truly yours,

William L. Curran

Officers Gregory O'Keefe, Daniel Reinold, Laurence Rotondi and Anthony J. Marino were officially commended for the apprehension of three notorious Charlestown youths, who were charged with receiving stolen property and possession of stolen credit cards on October 3, 1979.

Officers Anthony Marino, Richard McDonough and Marlan D. Smith were officially commended for arresting two suspects who were burglarizing the Veterans of Foreign Wars on October 7, 1979.

Inspector Thomas Taranti was officially commended for the apprehension and subsequent conviction of three persons involved in a stolen credit card scheme. As a result of this arrest, several thousands of dollars were recovered and returned to some of our local merchants.

TRAFFIC BUREAU

The Traffic Bureau as submitted by Lieutenant Edward F. Geary recorded a decrease in the accident rate, with a total of 567 accidents reported in 1979, compared to 608 in 1978.

Personal injuries claims increased from 110 in 1978 to 161 in 1979. The number of bicycle riders injured increased from 14 in 1978 to 20 in 1979.

During the year 1979, officers of this department cited 4200 motorists for a total of 979 various moving violations of which 839 were prosecuted in Woburn District Court, and 3221 were parking violations. There were 1073 various moving violations in 1978, therefore a decrease in 1979, of 94.

The ratio of persons under twenty-one involved in motor vehicle accidents showed a percentage rate identical to 1978; that is, 36%.

INVESTIGATIVE AND PROSECUTION DIVISION

1979 Annual Report (submitted to Chief Bernard C. Vacon) from Sergeant Detective Edward J. Pinato:

The following is a yearly report for 1979, from the Detective and Prosecution Division; the Office is made up of the following: Sgt. E. J. Pinato, in Charge; Inspectors, Robert Moreira, Thomas Taranti and Anthony Marino.

1979 was the first year that the Town of Stoneham received the full share from the District Court, on moving Motor Vehicle Violations. I am happy to announce that $42,148.00 was turned back to the Town of Stoneham on Motor Vehicle Violations.

As we all know, the year 1979 was called "THE YEAR OF THE CHILD". In Stoneham, it should have been named, "THE YEAR OF THE JUVENILE AND THE YEAR OF THE GIRL." We arrested more juveniles and more girls for all types of crimes than ever before in the history of Stoneham. We also found that it was the worst year we ever had as far as Credit Cards and larcenies go. One Credit Card case alone, involving three (3) young persons, there was over 175 larcenies and misuse of the Credit Cards involved. It took one Detective three weeks to funnel out information from three gas stations where these credit cards were being

used. It finally ended with the conviction of three (3) persons, and restitution involving over $4,000.00. We also found, that with the higher price of gasoline, and the self-service gas stations, that there wasn't a day that went by without someone driving off without paying, after filling their tank, or young persons arrested syphoning gasoline from motor vehicles. As the gas keeps creeping towards $1.25 per gallon, we expect an increase in this area. We also found that the price of food and other items rising, a large increase in shoplifting and thefts by the employees themselves occurred. We handled several cases for stores where restitution was made by the employees, to the tune of hundreds of dollars, and also handled hundreds of cases of shoplifting for stores where restitution and warnings to stay out of the store were handed out by the Courts. In one case alone, involving an employee, who was sending his friends to the checkout line with thousands of dollars in items unpaid for, a conviction and fines were handed out in Woburn Court.

We also found, in the area of house breaks, that in 1979, we had 215, compared to 227 in 1978; a slight decrease, but we also found that the breaks were more professional and with the flea markets and silver markets screaming for items, there was an easy market to unload stolen goods. We did arrest twenty-two persons for Break and Entries, and several other persons were charged with Receiving Stolen Property. The sad side of this situation, is that the persons arrested were mostly under 21 years of age, and mostly drug dependent. We have learned that, as the price of gold and silver goes higher, so does the price of heroin, and that a year ago, a bag was going for ten or fifteen dollars, and that same bag today is now fifty dollars, so if you multiply a two or three bag a day habit, times fifty dollars, you find that the heroin users are spending over one hundred and fifty dollars a day! Multiply that by seven days in the week, and you will find the dollar figure is astonishing! That is just for one addict! If you have ten or twenty persons using heroin, the figure keeps increasing. We also found an increasing number of young persons involved with cocaine. This drug is also very expensive, and is a drug that is becoming more popular. The price is in the area of $2,000.00 per ounce. We arrested thirty-three persons for drug offenses in 1979 as compared to 37 in 1978. A slight decrease in the number of arrests, but we found that the persons arrested were more heavily into drugs than the persons of the past year.

Thanks to our District Attorney, John Droney, we are still using the swift prosecution unit, which is available to us, and which we have used several times during the year. This means a serious crime or a habitual offender can be arraigned, indicted and prosecuted within 90 days. It does away with the old system of long continuances where we found that the offender is still on the street committing more and more crimes.

Finally, I am happy to announce that we still have the Middlesex Area Detective Meetings, of which we were one of the founders. This Unit was started some four years ago, and 79 other police departments meet at least once a month and disseminate information of criminals and their activity. It has been most helpful in the arrest and identification of hundreds of criminals throughout the State.

The following is a list of the more serious crimes and arrests that were made during the year 1979:

REMARKS

The Stoneham Police Department work load continues to increase. For example, in 1979, officers investigated 8,122 complaints, compared to 5,160 in 1978, an increase of 2,962.

This increase alone, was greater than the number of complaints investigated five years ago, when officers investigated 2,837 complaints.

The major problems for law enforcement are the consistent burglaries prevalent in all suburban communities adjacent to the core city of Boston. Even though officers have apprehended many of the persons responsible, the rate of burglary remains fairly constant. In my judgment, a mandatory prison sentence would greatly reduce the burglary rate.

Vandalism continues to be costly to the citizens of this town and vigorous efforts have been made to keep this senseless crime to a minimum. The regular police constantly patrol the troubled areas, and they are assisted each weekend by our very active Auxiliary Police Department.

Our juvenile officer has inaugurated a program whereby youngsters who are apprehended for vandalism are given the option of making restitution and doing voluntary work, or going to Court. The success of this program will be evaluated during the next two years. It should at least, make youngsters aware of their responsibilities to society and could be beneficial to all of us.

Finally, on behalf of the Stoneham Police Department, I want to thank the Board of Selectmen, Board of Public Works, Fire Department, Finance Board, Personnel Board, Auxiliary Police Department and all other Boards

and Departments, who assisted and cooperated with the Police Department during the past year.

Yours very truly,

Chief Bernard C. Vacon
Stoneham Police Department

Annual Report Of The Board of Public Works

The Board of Public Works meeting April 6, 1979, organized for the year as follows: Anthony R. Ciampa, Chairman of the Board, with members Furio Bracciotti and Michael O'Connor. Mr. O'Connor was elected to the Board in March, 1979, for a three year term. Mrs. Eleanor Chase was appointed Clerk of the Board.

The maintenance of Public Ways is a priority subject with the Board. It is imperative that adequate funds be allocated for this purpose to prevent deterioration of road surfaces which would affect many other costly items such as utilities, trees and grass plot areas. The Board is looking to the State and Federal Governments to subsidize this necessary work but was disappointed by the error which occurred in the State Legislature this year which prevented the disbursement of $13 million to the municipalities of the Commonwealth for roadway maintenance purposes. Corrective legislation has already been proposed for the next Legislative session.

As the price of oil goes, so does the price of bituminous concrete. Escalating costs and double digit inflation have taken an awesome toll on every department's ability to purchase goods and services. It has been, is and will continue to be necessary to tighten municipal belts. To that end, the Board has reviewed the elimination of the Fall Cleanup collection and has determined that the savings in man-hours and gasoline outweigh the inconvenience to the residents. It was expected that some of the material which would be normally collected at that time would find its way to vacant parcels of land, dead end streets and sections of woods, but, happily, the problem did not materialize.

The Board has executed a contract with the consulting engineering firm of Camp, Dresser and McKee to perform a study of the Town's sanitary sewer system. The firm completed all of its field work and analysis and is prepared to submit a preliminary report early next year. It is hoped

that, through this report, the Town will be able to take advantage of funding under P.L. 92-500 to correct recognized deficiencies in the existing sanitary sewer system.

During the year it became obvious that the water distribution system contained undetected leaks which were costing money and wasting water. The Board sought and received a transfer of funds from the Reserve Fund to contract for a water leak survey. The survey was completed in November and had identified a substantial number of leaks causing the water loss. The amount of water being lost was estimated to be 300,000 gallons per day, more or less, which translates into $26,000 per year. All leaks were repaired by the end of November.

The Board wishes to thank the Superintendent and the Assistant Superintendent of Public Works for their help and cooperation during the year and to recognize the Recreation Committee for its dedication to the varied programs sponsored by them. The Board would also like to express their appreciation to the many Boards and Committees, to the people of Stoneham and to the personnel of the Department for their assistance and support throughout the year.

Respectfully submitted,

Anthony R. Ciampa, Chairman
Furio Bracciotti
Michael O'Connor

Annual Report Of The Superintendent of Public Works

To the Board of Public Works:

Gentlemen:

The report of the Superintendent of Public Works for the year of 1979 is hereby submitted. This year we were blessed with a mild winter with moderate snow fall, which gave the Department the opportunity to identify and repair the damage inflicted on the vehicles and equipment from the great "Blizzard of '78". One of the more significant impacts of severe winter weather shows up in the roadway surfaces throughout the Town. Since the dollar doesn't cover as much roadway as it used to it is obvious that additional funding must be put to the task. This year the Legislature appropriated an additional $13 million dollars to be used for Municipal highway maintenance but, unfortunately, a clerical mistake moved the money at the State level so that it showed up on the Cherry Street as opposed to the local Treasury. The loss of this funding, while being beneficial to the overall tax rate, is very detrimental to the roadway maintenance program. Hopefully the situation will be corrected in the next session of the State Legislature.

The following is a definitive breakdown of the work accomplished by the Public Works Department:

HIGHWAYS

ROADWAY RESURFACING — (State Highway Fund)

1.	Evans Road (leveller only)	1115 feet
2.	Rhuland Road	650 feet
3.	Randolph Road	605 feet
4.	Flint Avenue	740 feet
5.	Forest Street (Oak St. to Bonad Road)	310 feet
6.	Fellsview Road	440 feet
7.	Marie Avenue	525 feet

ROAD CONSTRUCTION

1.	Longbow Road (Accepted 6/19/78) Resurfaced	750 feet
2.	Atwood Avenue (Accepted 6/19/78)	243 feet

ROAD CONSTRUCTION VIA BOND RECALL
(Under Planning Board)

1.	Rodgers Road (Contract with Pecora Contracting Co., Inc., Woburn)	754 feet

The following streets were accepted as Public Ways at the Annual Town Meeting of April 23, 1979:

1.	Eastern Avenue — Part	850 feet
2.	Morgan Avenue — Part	327 feet
3.	Michael Circle	270 feet
4.	Barbara Road	768 feet
5.	Woodbriar Road	439 feet

STREET SIGNS, CROSSWALKS & BEACONS

New England Traffic Signals, Inc., Winthrop, as low bidder, painted 82,000 feet of centerline, 9,000 feet of crosswalks, silhouettes, stop bars and parking stalls.

The Department has put special emphasis on the replacement of signs but the level of vandalism precludes us from gaining on this expensive situation.

Again we wait with baited breath for the implementation of the "TOPICS" program by the State to resolve the problems of old age that we are having with the traffic light systems along Main Street. Without State help the cost of rehabilitation of these systems would be prohibitive.

SIDEWALK CONSTRUCTION & MAINTENANCE

The Safety Committee determined that, due to the closing of the Emerson School, sidewalks would be necessary on parts of Cottage Street and William Street to enhance the safety of grammar school pupils walking to and from the Robin Hood School. The work was performed by J. Marchese & Sons, Everett, Massachusetts, lowest qualified bidder, who installed 560 feet of bituminous concrete sidewalk under the Betterment Act.

The Department installed sidewalks and curbstone under the Betterment Act as follows:

Portland cement concrete sidewalk — 1 location, 90 feet
Bituminous concrete sidewalk — 3 locations, 210 feet
Granite curbing — 5 locations, 254 feet

The Department also made repairs to Portland cement concrete sidewalks replacing 135 blocks for a total of 675 feet.

DRAIN MAINTENANCE

Lloyd Truax and Co., Foxboro, was the low bidder for catchbasin and drain manhole cleaning. A total of 1832 structures were cleaned this year. In addition, Department personnel cleaned numerous critical catchbasins which were found to contain considerable sand and silt washed in by the severe rains of the Summer.

DRAIN CONSTRUCTION — TOWN

1. Kimball Drive — 425 feet of 12" R.C. pipe, 3 manholes, 1 catchbasin.
2. #309 Green Street — 1 catchbasin.
3. Montvale Avenue — brook culvet, 90 feet of 13' × 6' box culvert.

DRAIN CONSTRUCTION — BY CONTRACTORS

1. Citation Drive — 470 ft. of 18" R.C. pipe, 75 ft. of 12" R.C. pipe, 4 manholes, 4 catchbasins.
2. Sparhawk Circle — 435 ft. of 18" R.C. pipe, 50 ft. of 15" R.C. pipe, 190 ft. of 12" R.C. pipe, 3 manholes, 6 catchbasins.
3. Sunrise Avenue — 385 ft. of 8" A.C. pipe, 1 manhole, 1 catchbasin.
4. Mountain View Drive — (on Montvale Ave.) 425 ft. of 24" R.C. pipe, 1100 ft. of 18" R.C. pipe, 865 ft. of 12" R.C. pipe, 10 manholes, 18 catchbasins.
5. Hill Street (Mt. Discovery) — 85 ft. of 15" R.C. pipe, 1510 ft. of 12" R.C. pipe, 8 manholes, 6 catchbasins.
6. Fellsview Terrace — 645 ft. of 30" R.C. pipe, 420 ft. of 18" R.C. pipe, 510 ft. of 12" R.C. pipe, 6 manholes, 14 catchbasins.

ROAD CONSTRUCTION — BY DEVELOPERS

1.	Elmhurst Road ext. —	115 feet
2.	High Cliff Terrace —	200 feet
3.	Fellsview Road (part) —	294 feet
4.	Crystal Drive (part) —	670 feet
5.	Brookbridge Road (part) —	225 feet
6.	Greg Road —	320 feet
7.	Fieldstone Drive —	2,455 feet
8.	Rustic Road (part) —	330 feet
9.	Sunset Road (part) —	350 feet
10.	Karen Drive —	170 feet
11.	Citation Drive (part) —	385 feet
12.	Boxwood Road —	180 feet
13.	Whittemore Lane —	705 feet

SEWER CONSTRUCTION

The Board of Public Works has entered into a contract with the Consulting Engineering firm of Camp, Dresser and McKee of Boston to perform an infiltration/inflow study of the sanitary sewer system and to develop a Facilities plan so that the Town may qualify to rehabilitate troublesome areas of the system under Public Law 92-500. This law reimburses the Town for 75 percent of the cost of the consultant's investigation and will reimburse the Town for 90 percent of the cost of implementing the consultant's recommendations. All of the field work has been completed and we are awaiting the preliminary report.

SEWER CONSTRUCTION — BY DEVELOPERS

1. Sparhawk Circle — 190 ft. of 8" A.C., 1 manhole.
2. Citation Drive — 397 ft. of 6" D.I. force main, 1 sewer lift station.
3. Crystal Drive — 565 ft. of 8" A.C., 3 manholes.
4. Mountain View Drive — (on Montvale Ave.) — 250 ft. of 8" A.C., 1 manhole (on site) — 900 ft. of 8" A.C., 7 manholes.
5. Hill Street (Mount Discovery) — 530 ft. of 8" A.C., 4 manholes (on site) — 677 ft. of 8" A.C., 3 manholes.

New services installed by Department —	7
Old services repaired by Department —	5
Sewer service plugs freed —	59
Sewer main plugs freed —	27
New services installed by Developers —	72

WATER CONSTRUCTION

Again the Department centered its activity on the replacement of water mains installed before 1900 which have become inefficient and expensive.

1. Hancock Street — Main St. to Wright St. — 436 ft. of 8" D.I. pipe, 2 - 8" gate valves, 1-6" gate valve, 1 hydrant.
2. Pleasant Street — Franklin Street to Summer St. — 865 ft. of 8" D.I. pipe, 3 - 8" gate valves, 1 - 6" gate valve, 1 hydrant.

When this work is performed all appurtenant house service pipes which are not copper tubing are replaced with copper tubing.

BY DEVELOPERS:

1. Sparhawk Circle — 200 ft. of 8" D.I. pipe.
2. Crystal Drive — 556 ft. of 8" D.I. pipe, 1 - 8" gate valve, 1 - 6" gate valve, 1 hydrant.

3. Mountain View Drive — 902 ft. of 8" D.I. pipe, 1 - 8" gate valve, 3 - 6" gate valves, 3 hydrants.
4. Hill Street (Mt. Discovery) — 1575 ft. of 8" D.I. pipe, 2 - 8" gate valves, 2 - 6" gate valves, 1 hydrant.

WATER SERVICES

The Department installed 3 new water services and replaced 27 old water services and developers installed 65 new water services during the year. The job of installing and maintaining water meters rests with the Department. There are a total of 5300 water meters in the system. The work of installing new meters takes place at the time the building is to be occupied but the replacement of meters not working is held until winter. When the winter is moderate with limited snowfall we are able to pursue these meter changeovers. We made significant progress in this matter this year.

In addition to the above the following was performed by the Department:

Water service leaks repaired —	21
Water main breaks repaired —	12
Main gates checked —	37
Main gates repaired —	5
Main gates replaced —	2

In the middle of the Summer it became evident that the amount of water supplied by the M.D.C. was greater than that consumed by the users. The Department, with the Board of Public Works' permission, obtained $5,500 from the Finance Board Reserve Fund and entered into a contract with Pipe Line Testing Service, Inc., to conduct a water leakage survey of the water distribution system of the Town. The survey was completed on November 14, 1979.

This company under the direction of its President, Francis P. Sopper, detected a total of twenty-six (26) underground water leaks. Of these leaks, three were main leaks, ten were service leaks, eleven were hydrant leaks and two were miscellaneous leaks. All of the leaks have been repaired. None of the leaks showed water above ground.

The results of the water leak survey show the effectiveness of using highly trained people with sophisticated electronic devices.

FIRE HYDRANT MAINTENANCE

There are now in excess of 600 hydrants in the Town's system. Each

hydrant is checked in the Fall and the dripless hydrants are treated with glycerine to prevent freezing. There were 13 old hydrants replaced this year in the ongoing program to eliminate obsolete or defective hydrants.

SNOW & ICE CONTROL

The total snowfall for the winter season was 34¾ inches. As stated previously the winter was moderate with no large snowstorms. This condition is very advantageous because the Department is able to return unexpended money to the General Fund and because repairs to equipment, grass plots, private property are avoided. Following last year, this winter was a welcome respite.

ROAD MACHINERY

The maintenance division had their responsibility expanded last year with the completion of the Municipal Garage to include the vehicles and equipment of almost all other municipal departments. This year emphasis was placed on modifying and improving the ongoing preventative maintenance program and developing more ways of saving on fuel consumption. The Iranian situation brought out most clearly the need to conserve fuel. The budget price for fuel was $0.52 per gallon while the December cost for fuel was $0.83 per gallon. It is anticipated that a similar price increase will occur next year.

The Department has purchased two (2) loadpackers with 31 cubic yard bodies and diesel engines since 1977. A standard gasoline engine 20 cubic yard loadpacker uses 28 gallons of gas during the normal operating day. A diesel engine 31 cubic yard loadpacker uses 17 gallons of diesel fuel during the normal operating day. The difference between the two is 11 gallons of fuel per day, 55 gallons per week, or 2,860 gallons per year. A substantial savings for one truck.

Another method used to maintain costs involves motor oil. We use approximately 1250 gallons of motor oil per year. A 4,000 gallon oil tank was installed in the ground and piped into the building and was filled with a motor oil compatible to almost all of the vehicles and equipment. This represents a three year supply. The waste oil is saved in a second underground tank of 1,000 gallon capacity. Considering the savings on bulk oil purchases and the sale of waste oil, the net price of a quart of oil is less than 30 cents. The oil tank was filled in July, 1978 and will be refilled in July, 1981.

The appropriation for equipment replacement for this year was the

sum of balances remaining in the similar articles of two previous years. Equipment purchased by bid during the year was:

one — one ton van truck
one — one-half ton pickup truck with diesel engine.

PARK DIVISION

The Park Division placed special emphasis on the maintenance and upkeep of the public parks and playgrounds this year. Much of their time is devoted to removing litter and repairing the effects of vandalism. The cleanup of Recreation Park on a Monday morning has taken as much as 12 man hours. Vandalism is very costly to the taxpayers and results in non-productive work for the Department. We ask for your help in controlling the problem.

The Recreation Committee, meeting monthly, continues to serve the Town well. Their organizational ability and foresight in recreation matters are reflected in the many and varied activities offered to the youth of the Town. Camp Hope, the Summer Program for Retarded Children, was moved to Melrose this year because the Stoneham facilities did not comply with the State Department of Public Health rules and regulations. Camp Hope was operated in Stoneham to the advantage of the region's retarded children for the last 25 years. The Stoneham children attended the Camp this Summer at its new location.

TREE DIVISION

The removal of dead or diseased trees and the trimming, spraying and planting of new trees remain the basic work of this Division. There were *131* trees taken down and 107 new shade trees planted this year. Vandalism and vehicular damage are still one of the greater detriments to the younger trees. The seasonal spraying of the trees is still the most effective tool in the control of tree diseases. The great blizzard of "78" did substantial damage to many older trees and has increased the workload of this Division this year.

CEMETERY DIVISION

The number of graves sold at Lindenwood Cemetery during the year was 91, and there was a total of 80 burials.

New sections were loamed and seeded in an area that had been

previously filled and graded. This work must be continued in order to stay ahead of the demand.

The cemetery personnel and equipment assisted in snow plowing activities, cleaning brooks and cleaning tops of catchbasins as required.

ADMINISTRATIVE STAFF

The office staff is responsible for the preparation and verification of the weekly payroll and the weekly bill warrants. They also turn out over 11,000 water bills per year as well as writing purchase orders for all materials, maintaining employee records, computing and recording costs incurred by various divisions, handling the sale and recording of burial lots and all the typing and related office procedures required.

The staff is comprised of four people who handle an ever-increasing work load. Hopefully the job of making out water bills will be performed by the computer in the not too distant future. This move would relieve some of the work load from the staff and possibly preclude the necessity to add additional personnel.

I would like to express my appreciation and gratitude to the Board of Public Works and the Board of Selectmen and to all those who have aided and assisted the Department during the year. I would also like to thank the other Town Departments whose cooperation made our work that much easier.

Respectfully submitted,

William J. Reid, Jr.

ENGINEERING DIVISION

Working under the direction of the Town Engineer and with the general guidance of the Board of Public Works and myself, the Engineering Division pursues a myriad of diverse functions. This five-man division oversees the planning, design, construction and renovation of the many miles of water, sewer and storm drainage piping within the Town's distribution and collection systems as well as the roadway network and the various buildings and property under the control of the Board of Public Works. In addition, the Engineering Division acts as a consultant to virtually every town department and committee, compiling data, analyzing problems and developing solutions in every discipline from Assessing to Zoning.

All of this Department's capital outlay and construction projects

originate from plans and budgetary estimates prepared by the Engineering Division. Once funded, the responsibility for preparation of final plans and specifications for a project as well as the evaluation and selection of contractors and construction supervision and inspection are all shouldered by this Division. Similarly, the Engineers are charged with the responsibility for developing specifications and contracts for virtually all materials and outside services utilized within the department from piping to pavements, from loam to lubricants, from tires and tubes to tools and trees. Even the bats and bases used in the summer recreation program are purchased under a contract which is prepared and administered by this division. During the year 1979, the division solicited bids, and evaluated proposals for some fifty different contracts. In total, some 111 different bid proposals were received, reviewed and ratified or rejected.

The Engineering Division shares responsibility with the Administrative Division for the maintenance and updating of various plans and records kept by the Department. Sealed drawings indicating the age, type and location of virtually every sewer main, and water main as well as the related pumping stations and appurtenances are catalogued and maintained up-to-date so that all necessary information will be readily available in an emergency situation.

As Stoneham continues to develop and mature, the Engineering Division is being relied upon more and more to act as a consultant to the various town departments. Every site plan which is submitted to the Board of Selectmen is reviewed by this division to insure compliance with regulations and compatibility with existing sewer, water and drainage systems. Likewise, the proposal is carefully scrutinized relative to its impact on traffic, parking, and related factors. Some 20 site plans were reviewed during the year encompassing proposals for small building additions up through major projects such as construction on 194 housing units off Montvale Avenue and 192 units off Hill Street.

Similarly, every subdivision plan submitted to the Planning Board is thoroughly reviewed in terms of roadway and utility design and conformity as well as the overall impact of the development on local neighborhoods. In addition, once a subdivision plan is approved it becomes incumbent upon the Engineering Division to calculate the amount of monetary surety which must be required in order to insure adequate performance by the developer. Also it is this division which is responsible for the daily inspection of all on-going roadway and utility work being performed in the various subdivisions and construction sites. During the year there were five subdivisions containing over 129 house lots under construction. In addition there were five apartment complexes containing a total of 535 units under construction. Again this year the failure of a private developer to live up to his commitments placed an added burden on the Engineering Division. When the owner of the Rodgers Road subdivision defaulted on his agree-

ment with the Planning Board, the Engineering Division was charged with the responsibility of revising the design, selecting private contractors, supervising the construction and finally of verifying the work as required to complete the roadways, sidewalks and pipelines.

Acting in their capacity as consultants, the Engineers are continuously called upon to assist in the development and review of the plans for the many specialized projects undertaken by the Town. These include: the plans for the reconstruction of portions of Main Street under the TOPICS program, the Stoneham Square Revitalization Study, and the Town-wide Sewage System Facilities Study. Lesser projects such as facilities for off street parking, construction of sidewalks as mandated by the Safety Committee, and the design of drainage for wetlands in concert with the Conservation Commission are likewise directed to this Division.

Annual Report Of The Conservation Commission

The seven member Conservation Commission is appointed by the Board of Selectmen and responsible for seventy acres of property in the town that is open to public use. The commission is also responsible for the administration and enforcement of laws protecting the public interest in wetlands, water supply and flood control.

During the year Daniel C. Towse was reappointed for a three year term, Nathan Emerson was appointed for a three year term and Mary E. Roach to fill the unexpired term of Joseph L. Beane.

Whip Hill Park continues to be the center of activity for the Commission. Whip Hill is the largest single property under commission control comprising of 30 acres of land, a large house that has been converted to public use, and an extensive garden and trail system. A number of conservation organizations make regular use of the Manor House for meetings and activities. A spring Open House is held in May to coincide with the blooming of the extensive Rhododendron and Azalea plantings. A small greenhouse and demonstration garden are maintained for educational pur-

poses. Through the Community Resource Program a teaching and tour guide is being prepared for the conservation center at Whip Hill.

The commission postponed its Arbor Day tree planting program for the elementary schools this year because of a budget impasse but will reinstate the program this year. We also hosted a meeting of the Board of Selectmen at Whip Hill Manor on September 11th following a tour of the property. The Selectmen received an interim report of the activities of the commission.

An inordinate amount of time has been spent this year in administering the Wetlands Protection Act. We have tackled flooding and water quality problems with a scope covering the M.D.C. Reservoir project to several backyard drain projects. In each case an Order of Conditions was issued after a public hearing and on-site inspection. As it becomes economically feasible to build in wet areas of the town these drainage problems will increase. A heavy storm of 9 inches of rain on frozen ground in January showed up many problem areas in town and pointed up the necessity of a coordinated approach between the Conservation Commission, Planning Board and Public Works Department.

Annual Report Of The Civil Defense Department

Stoneham Board of Selectmen:

In compliance with the provisions of Article 3, Section 8 of the By-Laws of the Town of Stoneham, I hereby submit this report of the activities of my department.

The mission of civil defense is to insure the maximum survival of people and preservation of property within the town in the event of natural or man-made disaster or nuclear/military attack upon the United States, by making use of all manpower, equipment, available fallout protection and other resources.

The Civil Defense Director is responsible to the Selectmen for overall Civil Defense planning, organization and training, using all available town and private agencies and resources for this purpose.

The energy shortage has been classified as a national emergency. Therefore, Civil Defense is involved at all levels of government and this department continues to handle energy related problems on the local level.

Through its auxiliaries, this department took part in many community fund raising projects such as the Walk-A-Thon, Marathon, in fact you name the "thon" and they were involved with it.

During the latter part of the year, a 1975 Ford sedan was acquired, replacing the station wagon that was being used for patrol duty. This vehicle was turned over to the crew at the Public Works Garage and they were asked to convert it into a police cruiser. The result is a credit to their fine workmanship. The car is completely equipped and, when on patrol, is another visible police cruiser on the street. By making use of a special purchase plan the department was able to equip two vehicles with radio communication for the price of one, saving the town considerable money.

In 1979, two women were sworn in as auxiliary police officers, and by year's end they had completed their basic training and were ready for duty.

The Board of Selectmen appointed Richard Hastings as Deputy Direc-

tor of Civil Defense. Mr. Hastings attended seminars and workshops so that he can effectively assist the Director when called upon.

Stoneham's Civil Defense program for FY81 has been approved, making Stoneham eligible for matching funds as well as reimbursement for many items within its budget, saving the Town money.

The auxiliary police and fire personnel volunteered more than 6,000 hours during the year. Translated into dollars, this would mean a saving to the Town of better than $40,000 in manpower cost and vandalism damages, or more important the prevention of injuries or worse. I will list two examples to illustrate; the auxiliary police manning the various intersections so that the youngster involved in the walk-a-thons could cross safely; the auxiliary fire department, with their lighting plant, at the scene of an accident or at a fire supplying light and assistance.

Report of the Auxiliary Police Department:

The organization consists of the following:

Chief Executive Officer, Chief Bernard C. Vacon, Liaison Officer, Sergeant Frank Del Tergo, Training Officers, Patrolmen William Surette and George Alger. Members of the department are Chief Bennie Pasquariello, Captain James Hunter, Lt's Russell Walsh, and Richard Perry, Sergts. Richard Baker, Michael Colonna, Michael Hurley, August Niewenhous, and Gerald Sullivan, Patrolmen Frank Gilson, Gary Burdick, John Adelizzi, Edward Calhoun, Robert Walsh, Charles Dell, Kathy Phillips, Ann Johnson, John Eldridge and James Tamburrini. These members volunteered in vandalism patrol of town properties 2,000 hours, general patrol and civic functions duty, 1,500 hours, training duty 900 hours, for a grand total of over 4,400 hours.

Report of the Auxiliary Fire Department:

The organization consists of the following:

Fire Chief Raymond L. Sorensen, Chief Executive Officer, Lt. Charles E. Fitzgerald, Training and Liaison Officer. Members of the department are: Captain Richard Hastings, Lt.'s James McTaggart and Stephen McDonough, Auxiliary Firefighters, Paul Koprek, Richard Vettesse, Joseph Cryan, Jack Callahan, Thomas Lucci and Kevin Leslie.

During the year the department responded to 4 box alarms, 16 stills,

took part in 3 parades and attended 5 training sessions at the Civil Defense Training Academy in Topsfield.

Members also assisted the regular department in pumping out cellars puting in 80 man hours on this type of duty. The lighting plant responded to structural fires at Green Street, Allen Leather Plant in Wakefield, the Waverly Street fire and assisted at the overturned tanker accident at Stonehill Towers.

During the year the following members attended and completed the Firefighter's course; Richard Hastings and Richard Vettesse. Richard Hastings and Joseph Cryan completed the Basic Rescue Course, both of these courses were conducted at the Civil Defense Training Academy in Topsfield. All told, these men volunteered more than 1,600 hours of their time to the town.

I wish to take this opportunity to thank the many people in my department who gave of their time and effort to make 1979 the year that it was.

Respectfully submitted,

Bennie Pasquariello
Director

Report Of The Town Counsel

The duties of Town Counsel to the Town of Stoneham are not dissimilar to those of general counsel to a medium size corporation. That is to say that the Town Counsel represents the Town in all instances where a private corporation would turn to its attorney for services. These include, but are not limited to, handling of litigation; counseling of officers, boards, committees, and key employees; all real estate work preparatory to acquisition of land or interest in land, whether by purchase or by eminent domain for municipal purposes; the drafting and review of contracts and other legal documents; appearances at all Town Meetings and meetings of the Board of Selectmen, and appearances at the meetings of other boards when requested. For the purposes of the foregoing, there are presently 200 active files, with a similar number which are considered inactive files, within easy access in the archives. For a clearer understanding of the activities of

this office, it would perhaps be advisable to break the work into four major categories, which are as follows:

I. **Litigation.** The procedures before the Massachusetts Appellate Tax Board make up by far the largest source of litigation. As of the compiling of this report, there were 18 formal and 6 informal cases before the Board. During the calendar year 1979, approximately 20 cases were tried and disposed of, while the findings in three of the cases have been appealed to the Massachusetts Supreme Judicial Court. Not only are the Appellate Tax cases the most numerous, but also could be considered the litigation which could most substantially affect the economic welfare of the Town. It is also reasonable to assume that the appellants who already have cases pending will add their appeal from the fiscal year 1980 taxes to the list of cases before the Appellate Tax Board.

In addition to the cases presently being appealed to the Supreme Judicial Court, there is also a case before the Appeals Court in which the Board of Selectmen is the defendant. The Town is also the defendant in nine cases presently pending in Superior Court, and a plaintiff in one other before the same Court. As far as litigation before administrative bodies is concerned, the Town is the respondent in an action presently before the Massachusetts Commission Against Discrimination, as well as being a respondent in an action before the Massachusetts Contributory Retirement Appeals Board.

II. **Opinions.** The duty of Town Counsel to give formal opinions upon written request therefor to various Town Boards, committees, and officials during the year 1979 raised a variety of questions from those which could be answered from memory to those which required hours of research. One of the most difficult tasks regarding opinions is explaining to the citizen who calls directly and requests an opinion prior to the relevant Town body having been asked. If the opinion was rendered under these circumstances, it would amount to "first guessing" of the department involved and would not tend toward good relations. So if you have a question relative to a department of the Town, ask that department first, and if you do not agree with their opinion, request that the question be referred to the Legal Department.

III. **Real Estate — Titles and Takings.** Occasionally the Town acquires a parcel of land for municipal purposes which require a large expenditure, and under these circumstances a complete title examination is undertaken to determine who receives the proceeds. However, most of the real estate transactions involve easements for utilities and street takings, and any damages suffered by the person from whom the interest in land was

taken is miniscule. Hence the process is much simpler, requiring only that the notification of such taking be provided the mortgagee as well as the owner.

IV. **General Counseling, Contracts and Appearances.** Town Counsel appeared at each and every session of Town Meeting, Annual and Special, and all meeting of the Board of Selectmen. In addition, he appeared before every Board or Committee who requested his appearance at their meetings. In the course of the year, the Town Counsel met with individual members of almost all of the committees, boards and departments of the Town. In addition, he drafted and/or reviewed contracts to which the Town directly or indirectly was a party.

The foregoing four classifications constitute the majority of the endeavors undertaken by the Legal Department. However, because the Town is still operating without any official who could be considered the "head" of the entire Town, there are many occasions when the subject matter that comes before the Town Counsel cannot easily be classified, or for that matter can it be determined that the subject matter properly belongs in the Legal Department.

As in the past, any success that the Town Counsel has experienced in the operation of the Legal Department is a reflection of the cooperation he has had from the officials and employees of the Town, for which gratitude is expressed at this time.

TOWN COUNSEL

Report of the Town Accountant

Report Of The Board Of Selectmen

Michael J. Rolli was re-elected and John R. Cullen elected to the Board of Selectmen for three-year terms on April 3, 1979. At the reorganizational meeting on April 10, 1979, Michael J. Rolli was elected Chairman; Patrick F. Jordan, Jr. elected Vice-Chairman; John R. Cullen, Secretary; James A. McDonough, Jr. and George R. O'Brien, members.

On January 16, 1979, the Hearing Room of the Stoneham Town Hall was dedicated to the late Winthrop A. McCarthy, who served the town for twenty-five years as Town Clerk and Secretary of the Board of Selectmen. A portrait of Mr. McCarthy was unveiled and a plaque hung on the door in memory of this exceptional member of our community.

In January, the Board of Selectmen granted a license to Warner Cable Corporation to construct and operate a Community Antenna Television System in the "Jerry Jingle" area of Stoneham. As this location abuts Melrose, where cable lines were already installed by Warner Cable, it was a practical decision to tie in with this line. Greater Boston Cable Corporation services the balance of the Town of Stoneham.

On March 19, 1979, Thomas M. Leahy, Esq. was appointed Town Counsel for the Town of Stoneham for a period of one year.

Annual appointments made by the Selectmen, effective May 1, 1979, for a term of one year each, were Edward M. Lynch, Jr., Building Inspector; Clement A. Duonolo, Building Department Coordinator; Joseph A. Marrone, Wire Inspector; John F. Kelley, Gas Inspector; Bennie Pasquariello, Director of Civil Preparedness; William F. McCall, Data Processing Coordinator; Judith A. Kannheiser, Dog Officer; William L. Curran, Veteran Benefits and Burial Agent; Robert E. March, Fence Viewer; Wallace C. Dunbar, Inspector of Veterans' Graves; Kathleen A. Sullivan, Night Clerk to the Board of Selectmen. During the year, many appointments were made to Boards, Committees and Departments.

The following licenses were processed and issued in the Selectmen's Office: Auctioneer (4); Automatic Amusement Machines (17); Billiard Tables (4); Bowling Alleys (20); Class I New Car Dealers (3); Class II Used Car Dealers (9); Club Liquor Licenses (7); Common Victualler Licenses (34); Gasoline and Oil Storage (4); Miniature Golf (1); Package Goods Stores (4); Public Entertainment on Sunday-Cinema I and II; Restaurant Liquor

Licenses (4); Special Permit-Liquor-Non-profit (2); Taxi Cabs (12). Revenue totaling $17,982.00 was turned over to the Treasurer's Office for said licenses.

Grants totaling $20,538.27 were received this year from the Helen Walcott Stockwell Trust covering payment of medical bills for needy Stoneham residents. Applications for these funds were supervised by Selectman James A. McDonough, Jr.

The Medford Consortium Comprehensive Employment & Training Act (CETA) program continued this year with approximately forty (40) persons being assigned to various town departments such as Council On Aging, Housing Authority, School Department, Public Works, Boy Scouts, Town Hall offices and custodial staff, Atlantis, and Assistant Dog Officer.

In April of 1979, work was completed on the Community Development Block Grant for home revitalization in the Stoneham Square area. The Department of Housing and Urban Development informed us in December that the Town of Stoneham had successfully complied with HUD standards and regulations and, having completed the project satisfactorily, the subject has been closed out by their office.

On September 6, 1979, the Board of Selectmen received, with deep regret, the resignation of Mrs. Nathalie LeDuc Lusas as Town Clerk of Stoneham, effective November 16, 1979. After interviews with various candidates, Mrs. Annamae Arsenault, 188 North Street, Stoneham, was appointed temporary Town Clerk as of November 17, 1979 until the next town election in April of 1980.

In accordance with the vote of the townspeople under Article #6 of the Warrant for the Annual Town Meeting of March 7, 1978, final papers were passed on September 11, 1979 for the sale of the former Stoneham Armory at 290 Main Street, to William H. Round, 12 Priscilla Road, Lynnfield, Massachusetts.

Public Hearings for citizen input were held in August and September of 1979 relative to a single-purpose preapplication in the amount of $300,000 for a Housing Opportunity Program in the Town of Stoneham. Prepared by Robert Engler of Stockard & Engler, Inc., said preapplication was submitted to the Department of Housing and Urban Development in September of 1979 and the Board of Selectmen eagerly awaits the receipt of this Grant to continue the improvement of many homes in our community.

The Board received a Deed containing eight (8) lots at Lindenwood

Cemetery from Mrs. Edna H. Kirts on October 16, 1979. Said lots to be used for the burial of indigent residents of Stoneham. It was voted to store the Deed in a pending file where it will be called to the attention of the Board yearly and to include the documentation in the Selectmen's Annual Report.

The TOPICS program continued under the leadership of Selectman James A. McDonough, Jr. Many meetings were held during the year with engineers from Tippetts-Abbett-McCarthy-Stratton, State Department of Public Works representatives, members of the Stoneham Square Business Association, and various concerned citizens, to assure that all aspects of the project are presented prior to start of construction.

Members of your Board of Selectmen have attended many conferences and committee hearings during the year in an effort to keep informed as to new rulings, plans or legislation which could concern the Town of Stoneham. Massachusetts Bay Transportation Authority Advisory Board; Northeast Metropolitan Regional Vocational School; Middlesex County Budget; Energy Conservation; Stoneham Square Revitalization and Community Planning and Development were a few of the areas of special interest.

A contract to provide ambulance service to Stoneham residents was awarded to Bay State Ambulance and Hospital Rental Service, Inc. on June 26, 1979. This program has proven to be both beneficial to our citizens and cost-effective to the town, and many favorable comments have been received by the Board of Selectmen. Inquiries from various municipalities requesting copies of our specifications and contract speak well for our efforts in setting up this program.

It is impossible to thank each person individually for his/her contribution in aiding the Selectmen to fulfill their commitment to the townspeople by serving in their best interest at all times. The outstanding cooperation between town departments is sincerely appreciated and such assistance has enabled the Board of Selectmen to effectively administer the affairs of the Town during this past year.

Respectfully submitted,

General Laws. Said appropriation to be raised by taxation or by transfer from available funds, or do anything in relation thereto.

BOARD OF SELECTMEN

ARTICLE 7.

To see if the Town will vote to have the Board of Selectmen appoint a five (5) member Committee to be known as the Energy Audit Task Force Committee. That said Committee will be responsible for determining the Town's needs and means in implementing energy conservation measures of all municipal buildings. That said Committee report their findings and recommendations for projects to be undertaken by the Town to the Board of Selectmen within one hundred and twenty (120) days of the Committee's initial public meeting. Said public meeting shall be held within thirty (30) days after Committee appointments. That the Town vote to raise and appropriate a sum of money from revenue of the current year for the necessary expenses incurred by said Committee under this vote and the cost of the implementation of the Committee's recommendations as deemed to be in the best interest of the Town by the Board of Selectmen.

BOARD OF SELECTMEN

ARTICLE 8.

To see what action the Town will take for the disposition of a certain sum of money received by the Town under Public Law 87-415, the Manpower Development and Training Act.

BOARD OF SELECTMEN

ARTICLE 9.

To see if the Town will vote to amend the By-laws of the Town by deleting Article III, Section 2-16, as presently written, and inserting in lieu thereof the following:

Sec. 2-16. Creation; composition; terms of members; subsequent appointments; vacancies.

There shall be a Finance and Advisory Board of fifteen (15) members who shall be voters of the town, eleven (11) of whom shall be those who have been appointed under the provisions of the vote on Article 40 for the 1976 Annual Town Meeting and four (4) members who shall be appointed by the

Town Moderator on the first Monday following the adjournment of the Annual Town Meeting for 1980. The term of office of the four members so appointed shall be: two members for one year, one member for two years and one member for three years. Upon the expiration of the terms of office of any of the fifteen members, the succeeding members shall be appointed for terms of three (3) years by the Town Moderator. The then current members of the Finance and Advisory Board shall evaluate prospective members and make recommendations to the Moderator. A vacancy on the Board, other than by expiration of a term, shall be filled for the unexpired term.

FINANCE AND ADVISORY BOARD

ARTICLE 10.

To see if the Town will vote to rescind the vote of Article 8 of the April 4, 1977 Annual Town Meeting establishing a "Capital Outlay Expenditure Committee."

FINANCE AND ADVISORY BOARD

ARTICLE 11.

To see if the Town will vote to authorize and empower the Board of Selectmen to appoint an Executive Secretary for a term of three (3) years under the provisions of Chapter 41, Section 23A of the General Laws of the Commonwealth of Massachusetts.

BOARD OF SELECTMEN

ARTICLE 12.

To see if the Town will vote to amend Chapter 10 of the Code of the Town of Stoneham, entitled PERSONNEL, by adding thereto the following:

Executive Secretary.

Qualifications: Applicant must have 1) at least five (5) years experience in public or municipal administration including the minimum of three (3) years full-time experience as a municipal administrator, and 2) must possess a Bachelor's Degree from an accredited college or university,

preferably in Public Administration and/or Business Administration, or an equivalent combination of education and experience.

Appointment: The Executive Secretary shall be appointed by a four-fifths vote of the Board of Selectmen for a term of three (3) years or until his resignation or removal. Such removal shall require a four-fifths vote of the Board of Selectmen and only after such removal has been initiated by written charges preferred against him by the appointing authority and he has been given an open public hearing on such charges if he requests such hearing. If said appointee is a non-resident, he shall become a resident of the Town of Stoneham within six months after his appointment. He shall hold no other office, elected or appointed, except as hereinafter provided.

Basic Function: Serve as the Chief Administrative Officer for the Board of Selectmen, developing and coordinating an integrated system of staff services. He shall plan, direct and coordinate any activities of the Town departments which are under the general supervision of the Selectmen and the activities of any other town department, board, committee or commission which may request his services and who can demonstrate a need for administrative assistance. He shall also serve as the personnel coordinator for the Personnel Board.

Duties and Responsibilities:

1. Subject to the direct supervision and authority of the Board of Selectmen or a town department, board, committee, or commission which requests his services and receives approval of such request, he shall regularly review operation and activities of all such officers, boards, commissions and committees and shall submit reports and recommendations concerning the administration of such officers, boards, commissions and committees to the official or officials having jurisdiction over such town departments.

2. He shall keep the Selectmen fully informed as to the needs of the Town and shall recommend to the Selectmen for adoption, such measures requiring action by them or by the Town as he may deem necessary.

3. He shall guide and give managerial and technical direction to all officials and offices under the jurisdiction of the Board of Selectmen concerning the operation of such office, including but not limited to all personnel matters. He may give such assistance to any other board, committee, commission or department which requests the same. He shall provide whatever assistance in the Collective Bargaining negotiations as the Collective

Bargaining Committee may direct with the approval of the Board of Select men.

4. He shall, under the authority delegated by the Board of Selectmen, represent the Town at hearings, suits, interdepartmental meetings, and other proceedings deemed essential by the Board of Selectmen. He shall meet with the Federal and State agencies relative to programs and funds available to the Town and shall determine and perform whatever is necessary to qualify the town for said Federal and/or State funds.

5. He shall have submitted to him all warrants for the payment of Town Funds, prepared by the Town Accountant in accordance with the provisions of Section Fifty-Six of Chapter 41 of the General Laws. He shall review such warrant and if any claim seems to him to be of doubtful validity, excessive in amount, or otherwise contrary to the interests of the Town, he shall refer it to the Board of Selectmen for an investigation of the facts and a determination as to what payment, if any, should be made. Pending such determination by the Selectmen, payment shall be withheld.

6. He shall act as coordinator between Town Departments, Boards, Committees or Commissions, and arrange meetings between the heads of such units to deal with common problems and to allow an interchange of ideas and information. He shall report to the Board of Selectmen the results of these meetings and his recommendations based therein.

7. He shall provide such assistance to the Finance and Advisory Board as it may direct relative to the Town Budget and shall be the budget analyst for said Board.

8. He shall, with the approval of the Selectmen, provide such technical assistance and supervision as the Planning Board may request, relative to the administration and enforcement of the subdivision control law including, but not limited to, surveillance of subdivisions under construction for compliance with contractual and legal requirements.

9. He shall provide advice and perform functions in connection with matters which are the subject of citizen complaints and keep the community informed on municipal affairs and encourage communications through his office between the citizens and municipal officers. In effect, the Executive Secretary shall act as Ombudsman.

10. He shall be an ex-officio member of all Town Committees.

11. As the agent for the Board of Selectmen, he shall have jurisdiction

over, and be responsible for, planning construction, reconstruction, alteration, repair, maintenance, improvement and use of all buildings under the jurisdiction of the Board of Selectmen.

12. He shall have the responsibility for the preparation and submission to the Selectmen of the operating budgets of all departments subject to the control of the Board of Selectmen and the preparation of the Town Report and such other reports as said Board of Selectmen requires.

13. He shall become thoroughly familiar with respect to the responsibilities and activities of the various departments of the Town and advise the Selectmen on ways of achieving maximum efficiency and coordination of the activities of those departments.

14. He shall not establish policy but shall collect and analyze data for the purpose of developing policy recommendations.

15. He shall act as Workmen's Compensation Agent for the Town and shall attend all hearings before the Industrial Accident Board in which the Town has an interest.

16. He shall coordinate the purchasing of all supplies, materials and equipment for those offices and departments under the control of the Selectmen and any other departments, boards and committees of the Town who request these services. In so doing, he shall draw up any specifications relative to bids concerning such purchases and shall make recommendations concerning acceptance of such bids to the awarding authority.

17. He shall refrain from participation in the election of the members of his employing administrative body or State Representatives or State Senators who represent the district of which Stoneham is part thereof and shall also refrain from all partisan political activities which would impair his performance as a professional administator.

18. He shall be the Secretary to the Board of Selectmen and in such capacity shall attend all meetings of the Board.

19. He shall perform such other duties consistent with his office as may be required of him by vote of the Selectmen or by vote of the Town Meeting or any which by implication are necessary to efficiently perform those duties which are heretofore enumerated.

20. All of the aforementioned activities shall conform with the General Laws of the Commonwealth and the By-laws of the Town of Stoneham. If

any provision of this classification is held invalid, the remaining provisions shall not be effected thereby. If the application of the classification to any person or circumstances is held invalid, the application of this classification to any other persons and circumstances shall not be effected thereby.

and insert in lieu thereof:

UNICORN RECREATIONAL AREA MANAGER:

a) **Generally:**

The Unicorn Recreational Area Manager shall work under the general supervision of the Unicorn Recreational Area Committee and shall be directly responsible for the efficient and profitable operations of the Golf Course, Arena and all other recreational facilities whether developed or undeveloped on the Unicorn acreage.

b) **Duties:**

It shall be the duty of the Recreational Area Manager to schedule and

promote all events at the arena, and opening and closing dates at the arena and golf course. The scheduling requires exercising a high degree of diplomacy as well as a good knowledge of linear scheduling techniques.

He shall be responsible for the accuracy of all receipts, including ticket sales, which go into the town general fund and responsible for preparing an annual budget which will be reviewed and accepted by the Unicorn Recreational Area Committee.

He shall maintain constant liaison with the Unicorn Recreational Area Committee, supervise the work performance of all recreational area employees and direct maintenance requirements.

He must assure the general upkeep and cleanliness of facilities, property, buildings, equipment and real estate on the Unicorn Acreage. He shall assure compliance with safety regulations both for employees and the general public, obtain required licenses and permits, maintain liaison with other similar operations in the New England Area and maintain contact with other arenas and golf courses to insure that his operation is up-to-date.

To see if the Town will vote to amend Chapter 10, Article V, Division 2. of the Personnel By-laws entitled "Job Descriptions" as follows:

Sec. 10-110. Unicorn Arena — Arena Manager

Delete: (a) Generally. The arena manager shall work under the general supervision of the Unicorn Committee, who is responsible for the overall operation of the Arena. Recommendation and decisions of a major nature are reviewed for soundness and feasibility. Overall work is reviewed in terms of the effectiveness of the operation and the quality of service rendered. The arena, although municipally owned, is operated as though it were privately owned and must make money to absorb the costs of operation, bond amortization and interest costs only. Guides consist of state statutes, policies of the Committee and operations manuals for equipment.

(b) Duties. It shall be the duty of the arena manager to schedule all events in the Arena. This function requires a great deal of contact with a wide variety of groups, most requiring ice time, and many who require space per se, i.e., wrestling shows, antique shows, scout exhibits, etc. In both cases, there is increasing demand for scheduled time in the arena. The scheduling requires exercising a high degree of diplomacy as well as a good knowledge of linear scheduling techniques. He shall be responsible for the accuracy of all receipts, including ticket sales, which go into the town general fund and responsible for preparing an annual budget which will be reviewed and accepted by the Unicorn Committee. The budget will then be presented by the Unicorn Committee to the Finance Board for approval and voted by the Town Meeting. He shall maintain constant liaison with the Unicorn Committee, supervise the work of all arena employees which in season reaches fifteen to twenty in a number of classifications, and supervise and direct maintenance requirements and custodial work. He must assure cleanliness of arena at all times and must assure the general upkeep of all facilities, property, buildings, equipment and real estate placed under his charge. He shall assure compliance with all safety regulations both for employees and the general public, obtain all required licenses and permits, maintain liaison with other skating arena operations in the New England area and maintain contact in the field of arena operations to insure that his operations are up-to-date and that the arena provides the optimum in services.

He shall be responsible for recommendations regarding purchase of major equipment for the arena operation and authorize expenditures, within his budget limits, of other supplies and equipment.

The Arena Manager shall perform all normal maintenance of refrigeration equipment.

(c) Qualification requirements. The arena manager must have graduated from college with a major, preferably in business administration, physical education or recreation and have five years responsible supervisory experience. Experience in sports arena management is desirable. Actual management experience may be substituted on a calendar year's experience for each year of college; provided, that it is in excess of five years responsible supervisory experience. At least two years of the before mentioned experience should be in some form of public relations. The arena manager must be able to deal effectively with the public.

and insert in lieu thereof:

ARENA MANAGER:

a) **Generally:**

The Arena Manager shall work under the general supervision of the Unicorn Recreational Area Manager and assist him in the efficient and profitable operation of the Arena.

b) **Duties:**

The Arena Manager shall be directly responsible for the supervision of the personnel, making work assignments, maintaining a good ice surface and cleanliness of the facility.

He shall perform and record all types of general maintenance in and around the skating arena which includes, but not necessarily is limited to, maintenance of refrigeration, and other equipment, painting and carpentry, etc.

He shall operate the Zamboni ice resurfacing machine and make ice as required. He shall perform other maintenance work within the Arena and throughout the recreational area as assigned by the Recreational Area Manager.

c) **Qualifications:**

The Arena Manager shall be a high school graduate with at least two years of formal education beyond high school, plus a minimum of three years of experience in general arena operations, maintenance, and repairs. Additional years of experience may be substituted for two years of formal education beyond high school. He must be able to deal effectively with the public.
